We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

- A plat must be submitted clearly showing the ownership of the offsetting leases.
- A statement must be submitted that offset owners have been notified of the application by certified mail.
- A plat must be submitted fully identifying the topography necessitating the non-standard location.
- Other: From the plat submitted it would appear that Mobil is also an offset operator with acreage in Sections 20 and 21 as well as Southland Royalty in Section 22.

Very truly yours,
