Re: Application for Non-Standard  
Location  
Martin Fed. Comm. No. 1-E

Gentlemen:

In our original request for approval of a non-standard location for our Martin Federal Comm. No. 1-E, which was approved by Administrative Order NSL-1378, the well location and acreage dedication for C-102 made mention of only the Basin Dakota Pool. We have revised the form C-102 to include the Blanco Mesaverde Pool, and have received permission to dually complete the Basin Dakota and Blanco Mesaverde Pools with Administrative Order MC-2798. We respectfully request an amendment to Administrative Order NSL-1378 to include the Blanco Mesaverde Pool.

Sincerely,

D. W. Bowers  
Area Superintendent

Attention: M. J. Turnbaugh  
Senior Engineer

Re: Rosa Unit Well No. 97  
31-T31N-R5W, Rio Arriba  
County, New Mexico

Dear Mr. Turnbaugh:

It has been called to my attention that the acreage in the subject Administrative Order was previously covered in Division Order No. R-2046, see attached.

To ensure a systematic plan of development in the Basin Dakota Pool in that area of irregular sections, Division Order No. R-2046 provided for numerous non-standard gas spacing and proration units in said pool. The S/2 of Section 31, Township 31 North Range 5 West, NMPM, Rio Arriba County, New Mexico, was included into a 327.63 acre unit consisting of the S/2 SW/4 of Section 19, the W/2 of Section 30, and the W/2 of said Section 31 (see Tract "H" on page 6 of R-2046 for this Township and Range).

My records indicate that this application inadvertently included the Basin Dakota Pool in the provisions set forth in Administrative Order NSP-1378, dated May 12, 1983, which authorized a non-standard 232.99-acre gas spacing unit for both the Blanco Mesaverde and Basin Dakota Gas Pools.

Therefore, that portion of Administrative Order NSP-1378, dated May 12, 1983, and amended March 3, 1987, authorizing a non-standard gas proration unit for the Basin Dakota Pool is considered invalid.

The subject well is to be considered as dedicated to the S/2 Sw/4 of Section 19, the W/2 of Section 30, and the W/2 of Section 31 by virtue of Division Order No. R-2046.

If you wish to pursue the 232.99-acre unit consisting of the S/2 of Section 31, a hearing before a Division Examiner will be required.

An amendment to said NSP-1378 is forth coming reflecting the omission of the Basin Dakota zone from the order.

If you should have any questions concerning this matter, please contact me.

Sincerely,

Michael E. Stogner  
Engineer

Re: APPLICATION FOR NON-STANDARD LOCATION  
Martin Fed. Com. No. 1-E

Gentlemen:

In accordance with paragraph F of Rule 104, Getty Oil Company respectfully requests Administrative approval to drill Martin Fed. Com. No. 1-E at a location 1450' FSL, 2460' FEL Sec. 13, T29N-R11W, San Juan County, New Mexico.

This well cannot be drilled at the standard location, due to sprinkler irrigation system and housing development.

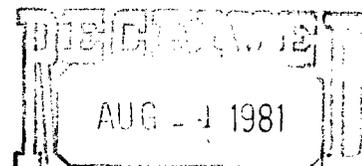

We are notifying, by certified mail, offset operator of the request.
