Gentlemen:

Amoco Production Company requests administrative approval of a revised location of an unorthodox site originally approved in State hearing on April 20, 1981, (Case No. 7215, Order No. R-6654). Approval was granted to locate the well at an unorthodox site 1980' FSL & 660' FWL, Section 14, T-24-S, R-28-E, NMPM. The S/2 of said Section 14 is to be dedicated to the well. However, because of a railroad right-of-way running through the section, a location change is necessitated and a request is for approval of a new location at 1980' FSL & 860' FWL, Section 14, T-24-S, R-28-E, NMPM.

Offset operators to this lease have been requested to notify your office of their approval of this unorthodox location. Attached are copies of certified letter receipts addressed to them. Also enclosed are a plat and a map.

Yours very truly,
