RE: Non Standard Location
Belco Pet. Corp.
#1, 1660 FS and FE
Unit letter "K" Section
26, T-15-s, R-36-E, Lea CO.
New Mexico

Dean Devonian Pool

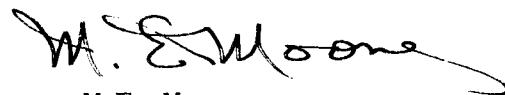

Dear Mr. Ramey,

Please find attached Belco Petroleum's application for permit to drill (C103) and well location and acreage dedication plate (C102) for our proposed Caudill State #1 a 14,000 foot Siluro-Devonian test to be drilled on a 280 acre state lease in Lea Co., New Mexico.

We are requesting administrative approval for a non-standard location i.e, over 150 feet from center of a quarter-quarter section, the Caudill State is 400 feet south-west of the center. The location was moved because of a plugged and abandoned well being at the center of the quarter-quarter section. The well was originally drilled to a total depth of 11,643'. We feel the 400' is nessary to insure that we can reach a total depth of 14,000' without interference with the older well.

We plan to move a rig on to this location about July 15, 1981. If you have any further questions please contact D.M. Cooper or myself at 915-683-6366.

Sincerely yours.

M.E. Moore

R.L. Stamets
State of New Mexico
Energy and Minerals Department
Oil Conservation Division

Dear M. Stamets,

We are supplying the requested information, however it must be pointed out that the reason for the request for a non-standard location is due to a plugged dry hole. We feel it is necessary to be 400 feet away from this old well to insure that we do not encounter the old well.

Thank you for your consideration.

Sincerely yours.

NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section

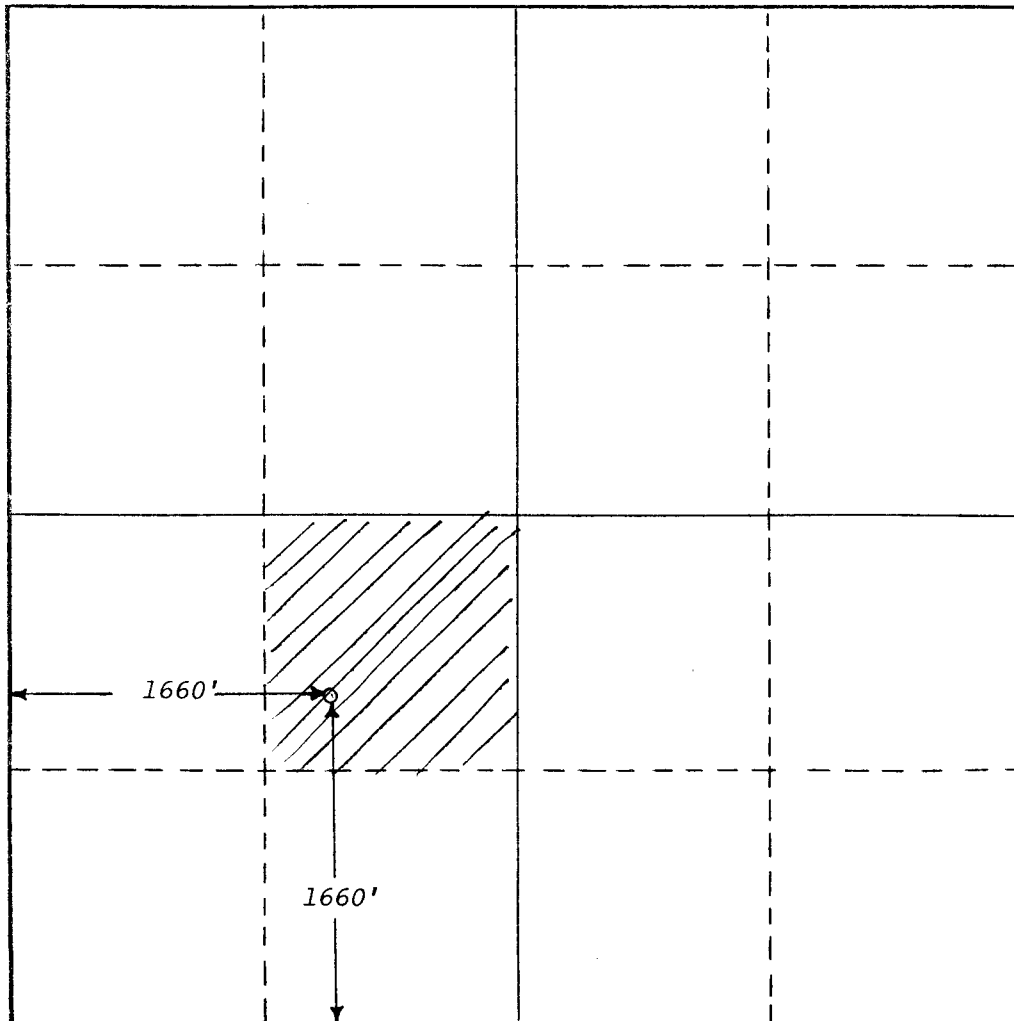

Operator BELCO PETROLEUM COMPANY		Lease Caudill State		Well No. 1	
Unit Letter K	Section 26	Township T-15-S	Range R-36-E	County Lea	
Actual Footage Location of Well:					
1660'		feet from the South		line and 1660'	
feet from the		West		line	
Ground Level Elev. 3865'	Producing Formation Strawn, Siluro-Devonian		Pool Dean Field-Strawn		Dedicated Acreage: 40 Acres

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☒ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) State of New Mexico

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Re: Application for Non-Standard
Location: No. 1, 1660' FSL and
1660' FEL of Sec, 26, T-15-S, R-36-E,
Lea County, New Mexico

We may not process the subject application for non-standard location until the required information or plats checked below (is)(are) submitted.

A plat must be submitted clearly showing the ownership of the offsetting leases.

A statement must be submitted that offset owners have been notified of the application by certified mail.

A plat must be submitted fully identifying the topography necessitating the non-standard location.

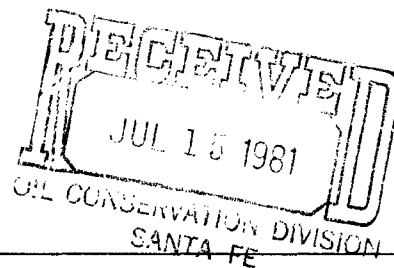

Other: Please show the acreage to be dedicated to the well.

Very truly yours,

R. L. STAMETS
Technical Support Chief

Dear Mr. Staments,

After your inquiry we discovered that due to a misunderstanding certified mail was not used initially to notify offset operations of our requested permit to drill the Caudill State #1.

This was corrected today and a copy of the receipts have been enclosed.

Thank you for your assistance.

Sincerely yours,

M.E. Moore
District Manager
