RE: Application for Administrative Approval of Unorthodox Location for Dugan Production Corp. Tapacitos #2 well, located 1545' FSL - 790' FWL, Section 25 T26N R2W, Rio Arriba County, NM

Dear Mr. Ramey:

Enclosed please find three copies of the Application for Administrative Approval of the Unorthodox Location for the above-referenced well.

Please note that it was originally drilled by Southland Royalty as a Dakota gas well, and was an orthodox location for a gas well. However, since Dugan Production Corp. has plugged it back and recompleted it as an oil well in the Mancos Shale, it is an unorthodox location.

Copies of this application are being submitted to all offsetting operators by certified mail with a request that they furnish your office with a waiver of objection.

Please advise if you need further information.

Sincerely,

Thomas A. Dugan
President
