RE: Application for Administrative Approval of  
Unorthodox Location for Dugan Production Corp.  
July Jubilee #1, 1650' FNL - 1520' FFL,  
Sec 30 T24N R9W, San Juan County, NM

Dear Mr. Ramey:

We hereby request approval of an unorthodox location for the above-referenced well. Copies of the well location plat and a production map showing offsetting operators are attached for your reference.

This well was approved as a gas well in the Dakota Formation and was an orthodox location for a Dakota well; however, it was completed in the Basin Dakota and Undesignated Gallup Formations, with production commingled in the well bore. It is an unorthodox location for an oil well. Our application for downhole commingling is pending approval.

A copy of this application is being submitted to all offsetting operators by certified mail with a request that they furnish your office a waiver of objection.

We request your approval of this location under the provisions of NMOCD Rule 104-F.

Sincerely,

*Jerome P. McHugh Jr.*
