Re: Sacra "SA" #4  
Fee Lease  
330' FSL - 660' FEL  
Section 35-T6S-R25E  
Chaves County, New Mexico

Dear Sir,

Yates Petroleum Corporation would appreciate an administrative approval for a proposed unorthodox Abo gas well location as provided for under NMOCD Rule 104F.

The enclosed map shows the topography in the SE quarter of section 35. Our preferred location is 660' FWL and 660' FEL. As can be seen on the map, it falls in Fivemile Draw. The next best location for us is 330' FSL and 660' FEL. Thus, we are requesting administrative approval for this location for topographic reasons.

The following are the formations we expect to drill through:

San Andres                      Glorieta                      Abo

The Land Map shows the two offset operators notified by certified mail of our request.

We will appreciate your expeditious approval and issuance of the administrative order.

Sincerely,

Gliserio Rodriguez  
Regulatory Manager
