Dear Mr. Ramey,

Yates Petroleum Corporation would appreciate an administrative approval for a proposed unorthodox Abo gas well location as provided for under NMOCD Rule 104F.

The enclosed map shows the topography in the northwest quarter of Section 14. Our preferred location was 1980' FNL and 1980' FWL. As can be seen on the map, it falls on a steep bank of Huggins Draw. The MMS and BLM would not approve this location or our alternate of 1780' FNL and 1780' FWL. The only location they will approve, and that we will go along with, is 2310' FNL and 1850' FWL. Thus, we are requesting administrative approval for this location for topographic reasons.

The enclosed land map shows the three offset operators who have been notified by certified mail of our request.

We will appreciate your expeditious approval and issuance of the administrative order.

Sincerely,

Gliserio Rodriguez
Regulatory Manager

Gentlemen:

This letter is to inform you that JJ-CC Limited (as lessee and working interest partner in the captioned well) and Viking Petroleum Inc. (as offset operator) have no objections to the Unorthodox Location which would move the captioned well not more than 200 feet south of a standard location (standard location - 1980' FNL and 1980' FWL).

Yours truly,

JJ-CC LIMITED
