Re: Application for Administrative Approval of Unorthodox Location
XTO Energy Inc.'s CM Morris A No. 1F
535' FSL and 1,325' FWL, Section 13, T27N, R10W
San Juan County, New Mexico
Dakota & Mancos formations

Dear Mr. Fesmire:

XTO Energy Inc. (XTO) hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Topographic Map
3. Aerial Photograph
4. Dakota & Mancos Formation Ownership Map
5. Dakota & Mancos Formation Production Map

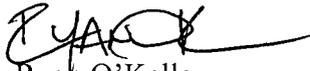

At the proposed location of 535' FSL and 1,325' FWL, the above captioned well is at a non-standard location to the south by 125' for both the Dakota and Mancos formations. The well was placed at this location due to topographic issues and to obtain the greatest distance from the CM Morris Com A No. 1 (existing Dakota formation producing well located in the same quarter location). In addition, drilling this well as a directional well, in order to make the location standard, would not be economical for this area according to XTO's economics. The Dakota formation is spaced on a 320-acre W/2 stand-up unit and the Mancos formation is spaced on a 160-acre SW/4 unit.

In addition to XTO, the offsetting Dakota and Mancos operating rights to the south are owned by ConocoPhillips Company and San Juan Partnership (True Oil Company). Both have been notified via Express Mail and Federal Express.
