RE: Unorthodox Well Location
Read & Stevens, Inc.
West Haystack Federal, Well No. 2
860' FSL and 660' FWL, Sec. 20-T6S-R27E
Chaves County, New Mexico

Dear Mr. Stamets:

We are applying for administrative approval of an unorthodox well location on behalf of Read & Stevens, Inc., of Roswell, New Mexico, under the provisions of paragraph F of rule 104 of New Mexico Oil Conservation Commission Rules and Regulations, dated October 1, 1978.

The proposed well is located 860' FSL and 660' FWL of Sec 20-T6S-R27E and was drilled as an oil well completion in the Montoya formation for a total depth of 6,315 feet. Since the Montoya formation did not prove to be productive, the well was plugged back to the Cisco formation and was completed as a producing gas well. The west half (320 acres) of section 20 is being assigned to this well. However, the footage from the south line end boundary should be 1,980' FSL instead of the 860' FSL. We are requesting that this location be approved.

Read & Stevens, Inc. owns the offset leases to the south, west and east of this location. Cities Service has the north and northwest offset location lease. They have been notified by certified mail, with three copies of this letter and are asked to indicate their waiver of objection, by authorized signature in the space provided, on two copies of the letter.

Cities Service Oil Company is being requested to mail one signed copy to Mr. R. L. Stamets, Technical Support Chief, New Mexico Oil Conservation Commission and one signed to George R. Smith, Energy Administrative Services Co., in the stamped, self addressed envelopes enclosed.

Sincerely yours,

ENERGY ADMINISTRATIVE SERVICES CO.

George R. Smith
