640 acre spacing

Dear Mr. Stamets:

This letter is to confirm that Powers Elevation did in fact request spacing exception on the above-referenced well location.

Rugged terrain will necessitate the drilling of an off-pattern location. The correspondence was mailed to your Aztec office on June 6, 1981.

Objections were never received from any of the five off-set lease holders. According to our records all requirements were met.

If anything further is required, please advise.

Sincerely yours,

POWERS ELEVATION
