310 Old Santa Fe Trail  
Room 209  
Santa Fe, New Mexico 87501

Dear Carl,

Below is a list of everthing we have enclosed with this un-orthodox location application. On the ownership plat the red hatchured areas show the units that offset our unit with the unorthodox location. The two units marked number one are presently owned by Riley Ltd and leased to Sun Exploration Company. The unit marked number two is owned by Selma Holbrook, Blanche Holbrook Williams, Madelline Means and H. B. Merrill. H. B. Merrills one-half interest has been leased to Kriti Exploration, the other's half interest has been leased to Jerry Hooper. To the best of our knowledge these are the only principals involved and have been contacted by registered mail.

Hopefully this will satisfy all the requirements under the rules and regulations of the Oil Conservation Division. If there is anything else you need or any other additional information please give me a call.

Yours truly,

Ralph D. Cole  
Geologist

## WELL LOCATION AND ACREAGE DEDICATION PLAT

Supersedes G-128  
Effective 1-1-65

All distances must be from the outer boundaries of the section

Operator <b>Trans Pecos Resources, Inc.</b>			Locality <b>Riley State</b>		Well No. <b>1-35</b>
Letter <b>c</b>	Section <b>35</b>	Township <b>10N</b>	Range <b>24E</b>	County <b>Guadalupe</b>	
Well Postage Location of Well: <b>990</b> feet from the <b>North</b> line and <b>2834.4</b> feet from the <b>East</b> line Ground Level Elev. <b>4854.5</b> Producing Formation _____ Depth _____ Dedicated Acreage <b>40</b> Acres					

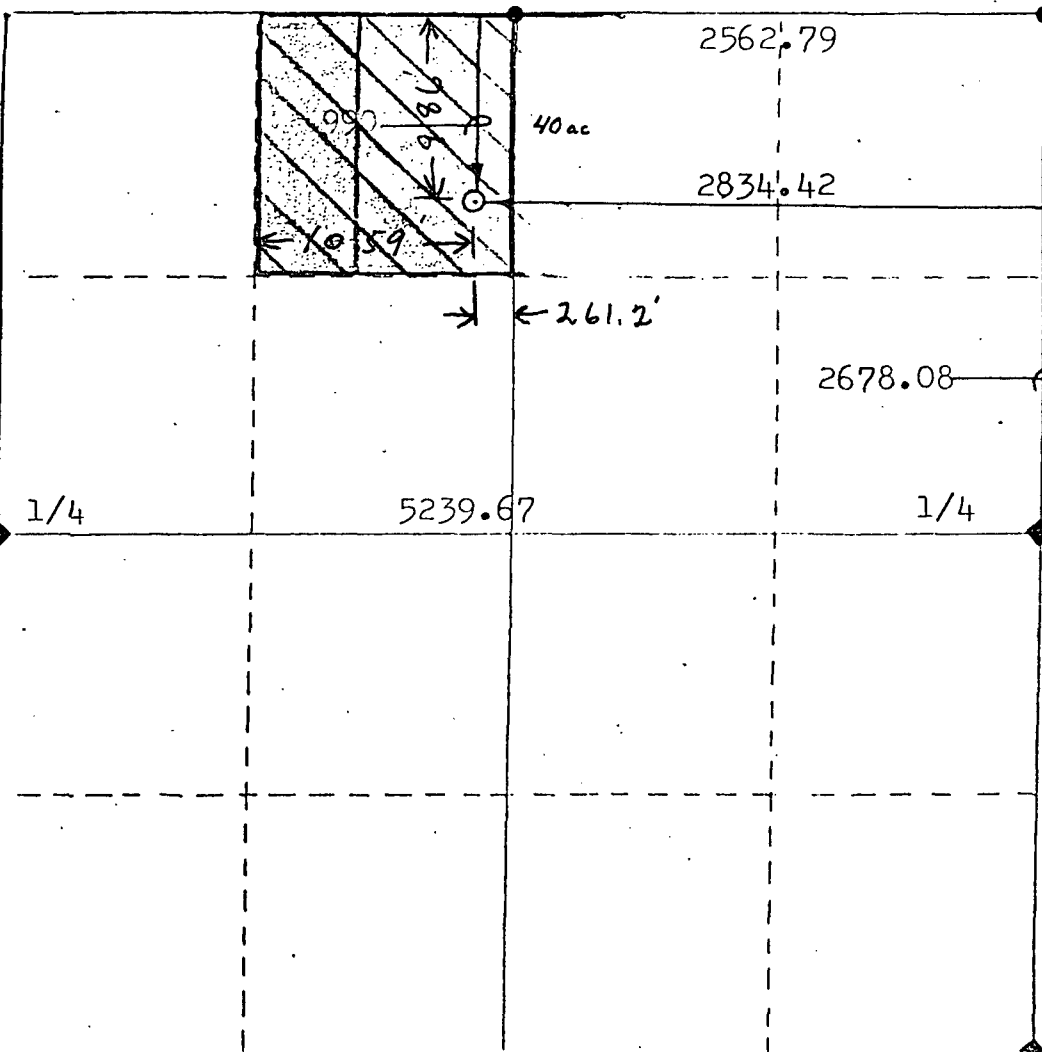

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation \_\_\_\_\_

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Re: Reason for Un-Orthodox location on Riley State 1-35

Dear Carl,

The location is moved 68.78 feet east (261.22 feet west of east line of Unit C and not 330 feet), because west of proposed location ground commences to drop off rapidly to the southwest on a rocky side slope. This would cause a need for extensive earth work and up to 20 feet of fill for a level location, and there would be the possibility of an unstable rig pad.

This location 986 FNL 2387 FWL is the most westerly feasible site for the location, conforming with geological imperatives.

If you require any additional information please give me a call.

Sincerely,

Jack Gawron  
Superintendent

Re: Reason for Non Standard Location on Riley State 1-35

Location is moved 58.37 feet east (271.6 feet west of east line of Unit C and not 330 feet), because west of proposed location ground commences to drop off rapidly to the southwest on a rocky side slope. This would cause a need for extensive earth work and up to 20 feet of fill for a level location, and there would be the possibility of an unstable rig pad.

This location (990 FNL, 2834 FEL) is the most westerly feasible site for the location, conforming with geological imperatives.

If you require any additional information please give me a call.

Sincerely,

*Jack Gawron (gh)*
