Gentlemen:

We request approval for an unorthodox Pictured Cliffs location for the above referenced well. We have staked this well 2020' FNL and 790' FWL, Section 15, T24N, R4W, which makes the well spot too close to the center line of Section 15.

We feel that this particular well spot is needed geologically due to the thin nature of the Pictured Cliffs sand in this area. Topographically, this well spot is the only buildable location without moving significantly farther to the north. Robert L. Bayless has ownership in the affected offsetting leases as shown in the enclosed plat.

If any problems arise with this request, please advise.

Sincerely yours,
