West Sawyer (San Andres) *Pool* field
Lea County, N. Mexico

V-F Petroleum Inc., respectfully requests administrative approval of the subject unorthodox location to be drilled as a replacement well for the State 32 #1 which, because of collapsed casing, is no longer productive. It is not feasible to drill an orthodox location within 200' from the center of the quarter-quarter section, because of the presence of a major lease road, water well and stock watering pond as shown on the attached plot. The proposed location is approximately 200' from the water well, down slope from the pond and 80' north of the lease road.

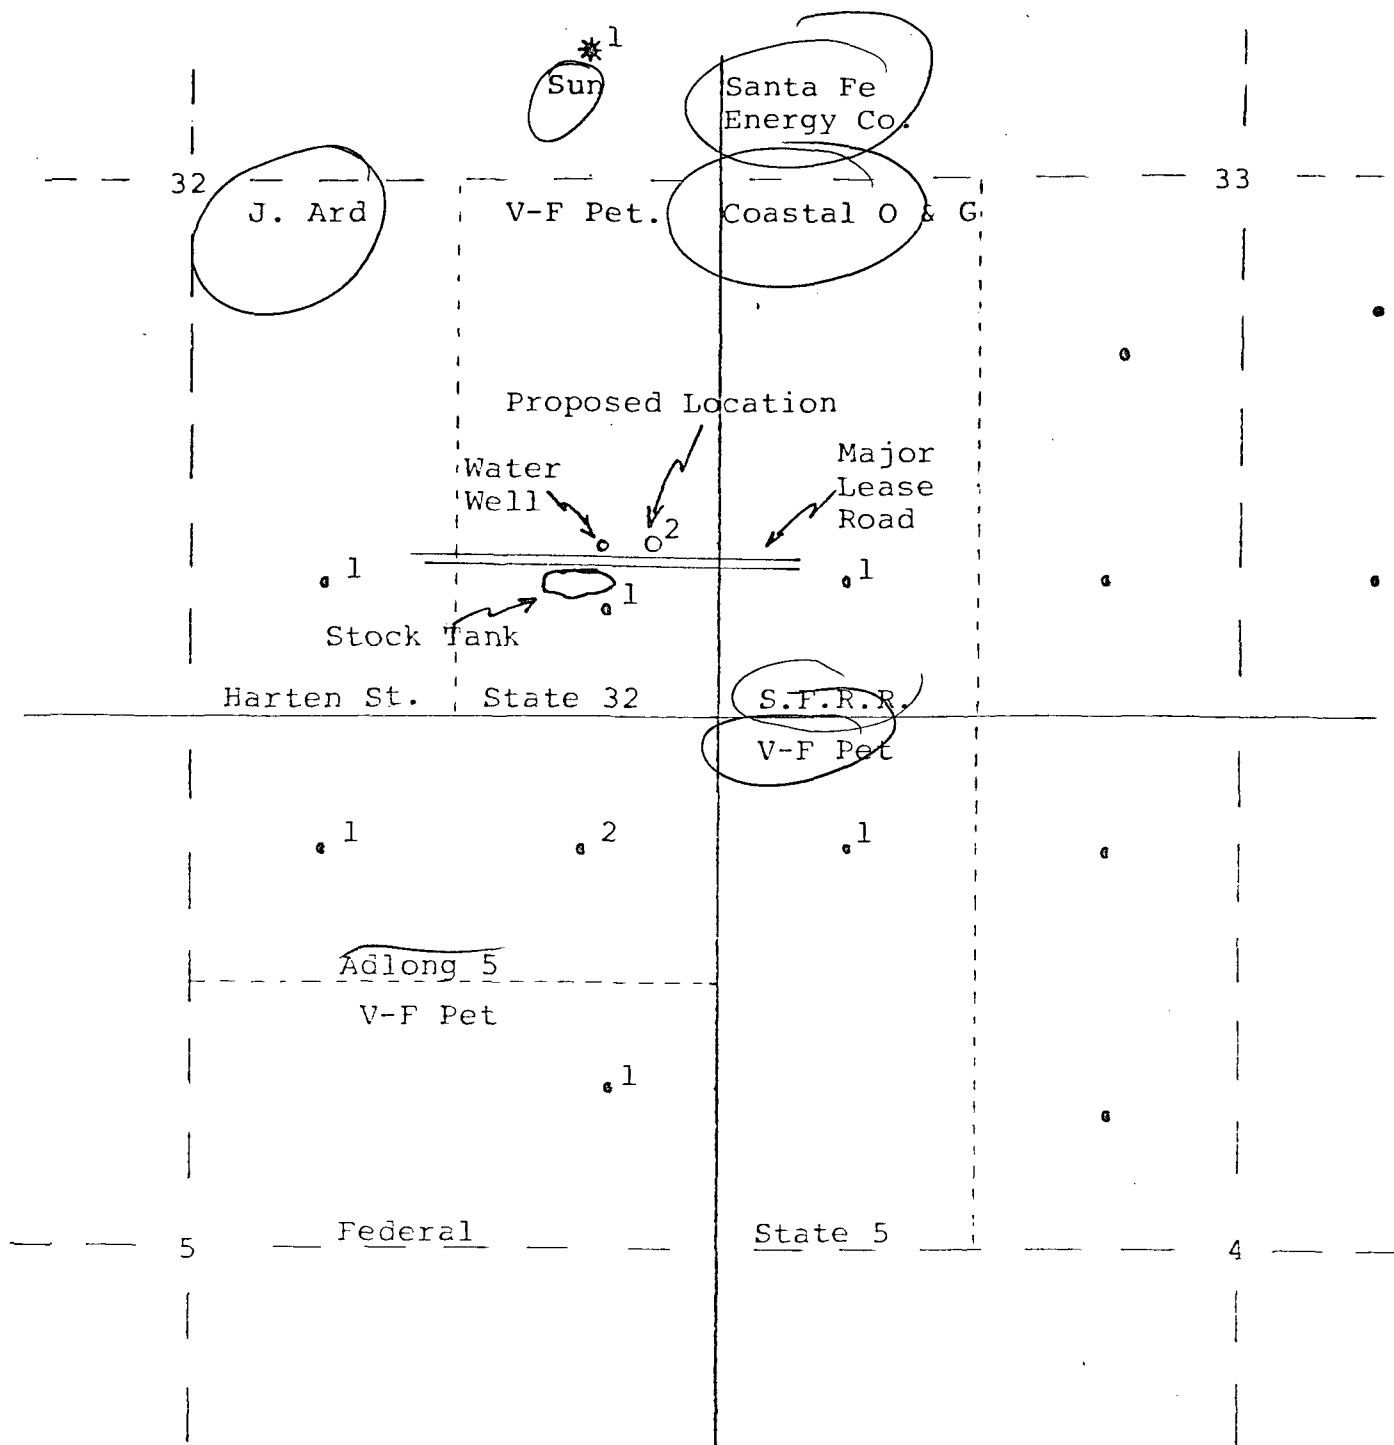

The four offset operators to the State 32 80-acre tract were notified of our intentions to drill the subject well and have signed waivers of any objections to the proposed location. These waivers are attached.

If any additional information is required, please call Toby Engleman at 915-683-3344. Your prompt handling of this request would be greatly appreciated.

Very truly yours,

C. Engleman
