Gentlemen:

Attached in duplicate (to each office) are a well location plat (C-102) with an ownership plat for the above referenced well.

Due to steep topography and archaeological sites discovered at our first location at 790' FSL, 1030' FWL, this well was located where it does not conform to state spacing requirements. This is the only geologic and topographic site acceptable.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

*Denise Wilson with Tenneco called 10-19-83. Had found Union Texas was also an offset and notified them Monday Oct 17. Changed waiting date.*
