NSL - 1786
Rule 104 FI
Wait for waiver from
Tenneco or until
Feb. 6, 1984

Dear Mr. Ramey:

The purpose of this letter is to request administrative approval without notice and hearing of an unorthodox well location within a secondary recovery project. The well location for which administrative approval is sought is the M. Dodd A No. 29 located 1650 feet FNL and 1370 feet FEL in Section 22, Township 17 South, Range 29 East, Eddy County, New Mexico. The well will be completed in the Grayburg San Andres formation in the Grayburg Jackson Seven Rivers Queen Grayburg San Andres Pool. The well will permit and continue to effect an efficient production and injection pattern within the secondary recovery project and is necessary for adequate drainage. Note that this location is not closer than 330 feet to an outer boundary of the lease nor closer than 10 feet to any quarter quarter section line.

Attached to this application as Exhibits A, B, and C respectively are the following:

- A. Well location and Acreage
Dedication Plat (Form C-102)
filed with the Artesia office
of the Oil Conservation Commission.
- B. A list of wells located within the
secondary recovery project indicating
specifically which wells are production
and which are injection wells.
- C. A plat showing the ownership of the
offsetting leases.

Tenneco Oil Exploration and Production and Marbob are the only operators of proration units offsetting the proration units

containing the proposed unorthodox location in the ~~Grayburg~~
~~Jackson Seven Rivers Queen Gayburg San Andres Pool.~~ Tenneco has
been notified of this application by certified mail and has been
requested to notify you if they have no objections.

Thank-you very much for your help in this matter. Should you
have any further questions or be in need of any additional
information, please contact Kevin Bliss or Raye P. Miller.

Sincerely,

John R. Gray
President

Sec. 22, T-17S, R-29E.
Eddy County, New Mexico
Grayburg Jackson Seven
Rivers Queen Grayburg
San Andres Pool.

Gentlemen:

Marbob Energy Corporation as operator of the M. Dodd A No. 29, hereby notifies you that we have applied to the New Mexico Oil Conservation Division for administrative approval of an unorthodox location and permit to drill at the above location. Administrative approval is being sought on the basis that the well is being drilled in a secondary recovery project.

You are being contacted as an operator of a proration unit offsetting the above described location in the Grayburg Jackson Seven Rivers Queen Grayburg San Andres Pool. If you have no objections to the drilling of this well sign below and forward one copy to the NMOCD in Santa Fe, one copy to this office, and retain one copy for your files. I have provided addressed stamped envelopes for your convenience.

Thank-you very much for your cooperation in this matter.
Please do not hesitate to contact me should you have any
questions.

Sincerely,

Kevin J. Bliss
Land Department
