If a watercourse was Impacted, Describe Fully (Attach Additional Sheets if Necessary)
No water course, surface water, nor ground water was impacted due to the release of this fluid.

Describe Cause of Problem and Remedial Action Taken (Attach Additional Sheets if Necessary)
Leak occurred due to external corrosion in the pumping tee offside 1" Balon valve.

Describe Area Affected and Cleanup Action Taken (Attach Additional Sheets if Necessary)
All fluids were contained on the well site. Clean up shall comply with the NM OCD standard. Soil impacted with clorides shall be removed and taken to an approved disposal site.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulation all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
