Attention: Michelle Hembree, Administrative Assistant

Administrative Order ~~NSL-1821 (SD)~~

NSL-1823 (SD)

Gentlemen:

Reference is made to your application for a non-standard location and simultaneous dedication for your Wells Federal Well No. 15 *E.J. Wells No. 16* located ~~810~~²³¹⁰ feet from the ~~North~~^{South} line and ~~460~~⁶¹⁰ feet from the West line, NW/4 of Section 5, Township 25 South, Range 37 East, Jalmat Gas Pool, Lea County, New Mexico.

W/2 SW/4 E
NE/4 SW/4
By authority granted me under the provisions of Rule 3, Section 1 of Division Order No. R-1670, the above-described unorthodox location is hereby approved, and is to be simultaneously dedicated to the existing ~~160~~¹²⁰-acre non-standard gas proration unit comprising the ~~SW/4~~^{NE/4} of Section 5 with your Wells Federal Well No. 4 located in Unit ~~2~~¹ of said section, both wells in Township 25 South, Range 37 East, Lea County, New Mexico.

Further, you are hereby permitted to produce the allowable from any of the wells on the proration unit in any proration.

Sincerely,

Joe D. Ramey
JOE D. RAMEY,
Director

Re: E. J. Wells No. 16
W/2 SW/4 & NE/4 SW/4
Section 5, T-25-S, R-37-E
Lea County, New Mexico
1. Simultaneous Dedication
to an Existing P. U.
2. Non-standard Jalmat
(Gas) Location
3. Notice of Section 103
Infill Application

Gentlemen:

In the near future, we plan to file a 9-331C and C-102 with the Bureau of Land Management District Office in Carlsbad for permission to drill a new Jalmat gas well as a Section 103 infill well at a non-standard location consisting of 2310' FSL and 610' FWL Section 5, T-25-S, R-37-E, Lea County, New Mexico. The E. J. Wells Federal No. 16 must necessarily be drilled at an unorthodox location because of various surface obstructions. The existing E. J. Wells No. 13 is located 1980 FSL and 66 FWL Section 13. A caliche pit encroaches from the north, and State Highway 18 crosses the proration unit from north to south just to the west of the proposed location. The proration unit is criss-crossed by lease roads, gas lines, water injection lines, and contains three additional oil wells. Attached to this application is a sketch showing the surface and subsurface obstructions on the SW/4 Section 5.

The subject well will be drilled on an existing 120-acre non-standard Jalmat (Gas) proration unit comprised of the W/2 SW/4 & NE/4 SW/4 Section 5. At the present, the subject 120-acre tract is dedicated to the El Paso Natural Gas Company-operated (soon to be Doyle Hartman-operated) E. J. Wells No. 13 (L-5-25S-37E) which is a Jalmat (Gas) producer, and upon the drilling and completion of the newly proposed E. J. Wells No. 16, both the E. J. Wells No. 16 and the E. J. Wells No. 13 will be simultaneously dedicated to the existing 120-acre proration unit consisting of the W/2 SW/4 & NE/4 SW/4 Section 5.

Mr. R. L. Stamets
May 22, 1984
Page 2

Therefore, we hereby file for administrative approval to simultaneously dedicate the new infill well (E. J. Wells No. 16) along with the E. J. Wells No. 13 to the existing 120-acre non-standard Jalmat (Gas) proration unit comprised of the W/2 SW/4 & NE/4 SW/4 Section 5, T-25-S, R-37-E, Lea County, New Mexico.

Furthermore, if the proposed well is completed as a commercial producer and in compliance with the Natural Gas Policy of 1978, an application will also be submitted to the Bureau of Land Management to obtain administrative approval for the well as a Section 103 infill well.

Three copies of a land plat showing the location of the original Jalmat (Gas) well on the 120-acre proration unit plus the non-standard location of the proposed new infill well are also enclosed.

Copies of the enclosed application have also been sent by certified mail to all offsetting parties owning Jalmat Gas rights. The following is a list of the three offsetting Jalmat Gas owners:

Phillips Petroleum Company
4001 Penbrooke
Odessa, Texas 79762

Attention: Mr. G. R. Smith
Director, Reservoir Engineering

El Paso Natural Gas Company
