Director
Oil Conservation Division
P. O. Box 2088
Santa Fe, New Mexico 87501

NSL-1831

RULE 104FI

NO OFFSETS OBJECT (waivers
Release Immediately received)

Dear Mr. Ramey:

UNIT may include
Federal and State leases

The purpose of this letter is to request administrative approval without notice and hearing of unorthodox well locations within a secondary recovery project. The well locations for which administrative approval are sought are the ~~M. Dodd B No. 41~~ located ~~2615 feet FNL and 330 feet FEL in Section 14~~, the M. Dodd B No. 42 located 2615 feet FNL and 1345 feet FEL in Section 14, and the M. Dodd B No. 43 located 2565 feet FSL 2465 feet FEL in Section 14, all in Township 17 South, Range 29 East, Eddy County, New Mexico. The wells will be completed in the Grayburg San Andres formation in the Grayburg Jackson Seven Rivers Queen Grayburg San Andres Pool. The wells will permit and continue to effect an efficient production and injection pattern within the secondary recovery project and are necessary for adequate drainage. Note that these locations are not closer than 330 feet to an outer boundary of the lease nor closer than 10 feet to any quarter quarter section line.

SE/4 HE/4 of Attached to this application as Exhibits A through F respectively are the following:

- A. Well location and Acreage
Dedication Plat (Form C-102)
filed with the Artesia office
of the Oil Conservation Division.
(Exhibits A-C)
- B. A list of wells located within the
secondary recovery project indicating
specifically which wells are production
and which are injection wells.
(Exhibit D)

C. A plat showing the ownership of the offsetting leases. (Exhibit E)

Phillips Oil Company (formerly General American) and Marbob are the only operators of proration units offsetting the proration units containing the proposed unorthodox locations in the Grayburg Jackson Seven Rivers Queen Grayburg San Andres Pool. Phillips Oil Company has been notified of this application as it pertains to the M. Dodd B No. 41 by certified mail and has been requested to notify you if they have no objections. Please note that the M. Dodd B No. 42 is located in the SW1/4NE1/4 of 14-17-29 and the M. Dodd B No. 43 well is located in the NW1/4SE1/4 of 14-17-29 and all prorations units surrounding these quarter quarter sections are being operated by Marbob in the Grayburg Jackson Seven Rivers Queen Grayburg San Andres Pool. There is therefore no offset operator which needs to be notified as to these locations.

Thank-you very much for your help in this matter. Should you have any further questions or be in need of any additional information, please contact Kevin Bliss or Raye P. Miller.

Sincerely,

John R. Gray
President

EXHIBIT "A"
NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section.

Oil Conservation Division SANTA FE		Lease M DODD "B"		Well No. 41	
Unit Letter H	Section 14	Township 17S	Range 29E	County EDDY	
Actual Footage Location of Well: 2615 feet from the NORTH line and 330 feet from the EAST line					
Ground Level Elev. 3616.5	Producing Formation San Andres	Pool Grayburg Jackson SR-Q-G-SA		Dedicated Acreage: 40 Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Eddy County, New Mexico
Grayburg Jackson Seven
Rivers Queen Grayburg
San Andres Pool.

Gentlemen:

Marbob Energy Corporation as operator of the M. Dodd B lease and the above referenced well hereby notifies you that we have applied to the New Mexico Oil Conservation Division for administrative approval of the above referenced unorthodox well location and have applied for permit to drill at the above location. Administrative approval is being sought on the basis that the well is being drilled in a secondary recovery project.

You are being contacted as an operator of a proration unit offsetting the above described location in the Grayburg Jackson Seven Rivers Queen Grayburg San Andres Pool. If you have no objections to the drilling of this well please sign below and forward one copy to the NMOC in Santa Fe, one copy to this office, and retain one copy for your files. I have provided addressed stamped envelopes for your convenience.

Thank-you very much for your cooperation in this matter.
Please do not hesitate to contact me should you have any
questions.

Sincerely,

Kevin J. Bliss
Land Department
