Section 7-T19S-R31E
Eddy County, New Mexico

Gentlemen:

Devon Energy Production Company, L.P. ("Devon"), as Operator, has plans to recompleate this well in the Bone Springs formation. This well was originally drilled to a total depth of 12,350' at an orthodox surface location for a gas well. The well was completed in the Morrow formation and has been producing since April 2003.

Inasmuch as the recompleated North Hackberry Bone Spring Pool is located closer than 330' from the NW/4 NE/4 line of Section 7, T19S, R31E, Eddy County, New Mexico this will be an unorthodox location from that permitted by the current Statewide Pool Rules, Devon respectfully requests that the Commission administratively approve this application for an unorthodox location in accordance with Division Rule 104(F)(3). This unorthodox location affects the contractual owners under the Joint Operating Agreement covering the N/2 of Section 7-T19S-R31E, being Marbob Energy Corporation, Pitch Energy Corporation, Todd M. Wilson, Cannon Exploration Company, McCombs Energy, L.L.C., Dillard, Fisher & Dillard Partnership, Constance B. Cartwright, Trustee U/W/O George F. Bauerdorf, OXY USA WTP LP, Lobos Energy Partners LLC, Richard K. Barr, Scott E. Wilson, The Wright NM Partners LP, and Devon. Each of the effected owners has been given notice of this application for approval of a unorthodox location.

Attached for your review you will find a land plat reflecting the leasehold owners in the N/2 of Section 7, and porosity and resistivity logs reflecting the North Hackberry Bone Spring interval of interest, and a State of New Mexico form C-102 for the previous completion.

Feel free to contact the undersigned at (405) 228-8589 if there are any concerns or questions regarding this application.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.
