Attention Mr. Gilbert Quintana

Gentlemen:

Request for Amendment to Administrative Order NSL-1926

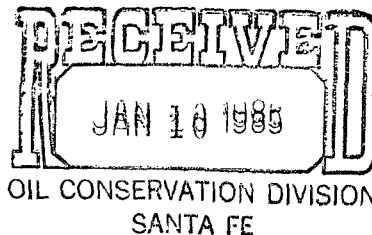

Per your telephone conversation with Coleen Bose on December 31, 1984, we are requesting amendment of Administrative Order NSL-1926 approving the non-standard location for our MCA Unit No. 365.

While drilling the original hole, deviation of 7° was encountered. It was decided to plug and abandon the hole, skid the rig 20' to the north and re-spud the well under the new name of MCA Unit No. 365Y. The revised location is 1200' FNL and 1580' FEL of Section 29, T-17S, R-32E, as shown on the attached plat. There are no offset operators to the new location.

Verbal approval from Melba Carpenter of the Hobbs District office to re-spud the well was obtained on December 31, 1984. If you need any additional information, please contact Coleen Bose at ext. 117 of this office.

Yours very truly,

RCB:jr

Attention: Roger M. Kirk

Administrative Order NSL-1926

Gentlemen:

Reference is made to your application for a non-standard location for your MCA Unit Well No. 365 to be located 1220 feet from the North line and 1580 feet from the East line of Section 29, Township 17 South, Range 32 East, NMPM, Grayburg Formation, Lea County, New Mexico. The NW/4 NE/4 of said Section 29 shall be dedicated to the well.

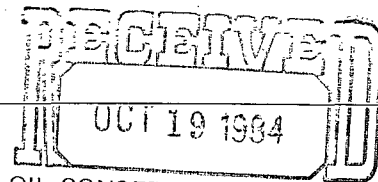

By authority granted me under the provisions of Rule 104 F(I), the above-described unorthodox location is hereby approved.

Sincerely,

R. L. STAMETS, ACTING DIRECTOR

Attention Mr. Gilbert Quintana

Gentlemen:

Request for Administrative Approval of an Unorthodox Location on the
Proposed MCA Unit No. 365, 1220' FNL and 1580' FEL, Section 29-17S-32E,
Lea County, New Mexico

We respectfully request approval of an unorthodox location for the subject well, which will produce from the 6th Grayburg zone. It is proposed as an infill in the MCA Unit waterflood for recovery of additional secondary reserves. This well will also be cored for evaluation purposes in relation to future CO₂ flooding of the MCA Unit.

Attached is a copy of our Application for Permit to Drill, which has been approved by the BLM. Included with this is a Well Location Plat, form C-102; it reflects that the location of the well meets the specifications for administrative approval because it is not closer than 330' to the unit boundary or closer than 10' to the nearest quarter quarter section line. There are no offset operators to the proposed well as shown by the attached ownership plat. Also enclosed is a map showing the surrounding injection wells and producers in the unit.

If you should have any questions, please contact Danny Powell of this office.

Yours very truly,

Wm A. Butterfield
