RE: Application for Unorthodox  
Well Location in the  
Turkey Track, North Morrow,  
Eddy County, New Mexico

Mr. Joe D. Ramey, Director  
Oil Conservation Commission  
P.O. Box 2088  
Santa Fe, New Mexico 87501

Dear Sir:

Gulf Oil Corporation respectfully requests your administrative approval to drill the Artesia State Com. #2 in the Turkey Track, North Morrow Field at the unorthodox location of 660' FNL and 1650' FEL, section 23, T18S-R28E, Eddy County, New Mexico.

The subject well will be drilled to the Morrow and initially completed in Travis Upper Penn, retaining the Morrow as a possible plugback at a future date. An unorthodox location is necessitated by geological conditions in the Upper Penn. Upper Penn production is confined to a narrow band of porosity development trending northeast-southwest (please see attached plat). Our mapping indicates the proposed location will have the highest potential for Upper Penn porosity development.

Offset operators have been notified by certified mail of our application.

Very truly yours,

  
R. C. Anderson

**NEW MEXICO OIL CONSERVATION COMMISSION  
WELL LOCATION AND ACREAGE DEDICATION PLAT**

Form C-102  
Supersedes C-128  
Effective 1-1-65

All distances must be from the outer boundaries of the Section

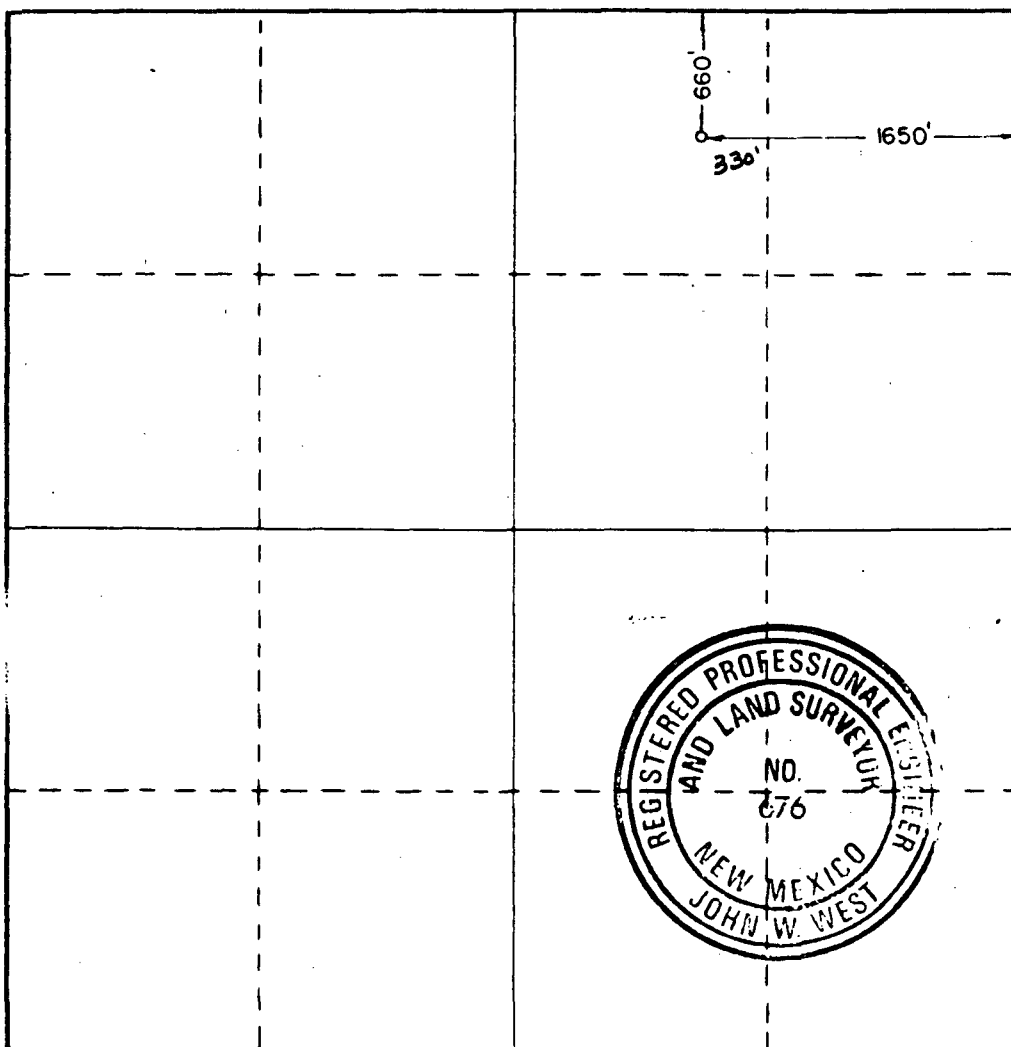

Operator <b>GULF OIL CORP.</b>			Lease <b>ARTESIA STATE COM</b>			Well No. <b>2</b>		
Unit Letter <b>B</b>	Section <b>23</b>	Township <b>18S</b>	Range <b>28E</b>	County <b>EDDY</b>				
Actual Footage Location of Well:								
<b>660</b> feet from the <b>NORTH</b> line and			<b>1650</b> feet from the <b>EAST</b> line					
Ground Level Elev. <b>3522.0</b>		Producing Formation			Pool		Dedicated Acreage:  Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes    ☐ No    If answer is "yes," type of consolidation \_\_\_\_\_

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Dear Sirs:

Gulf proposes to drill and complete the subject well in the Travis Upper Penn, and to put the Morrow behind pipe as a salvage zone. We are asking the State to grant administrative approval of the location, which will be unorthodox for the Morrow (see attached).

If there is no objection to drilling at the subject location, please indicate so by signing this waiver in the space provided. Send this waiver to the Oil Conservation Commission, P.O. Box 2088; Santa Fe, New Mexico 87501, attention Mr. Richard L. Stamets.

Yours very truly,

R. C. Anderson
