Gentlemen,

We propose to drill the above referenced well in 1985. Due to topography, the well pad cannot be built in a standard location. The slopes of a rocky mesa eliminate most of the NW/4 of Sec 26. A location on top of the mesa is unfeasible.

Approvals from offsetting lease holders are included.

Sincerely,

Jeffrey J. Bollschweiler  
Drilling and Production Engineer

Sir:

We propose to drill the above referenced well in early 1985. Due to the topography the well pad cannot be made in a standard location. Our records indicate you are the owner and operator of acreage which adjoins this drilling unit. If you have no objections to this proposed unorthodox location, please sign the attached copy of this letter and return to this office. Your prompt attention to this matter would be greatly appreciated.

Sincerely,

Jeffrey J. Bollschweiler  
 Drilling and Production Supt.

This above non-standard location is hereby approved.
