Dear Sir,

Yates Petroleum Corporation would appreciate an administrative approval for a proposed unorthodox Abo location as provided for under NMOCD Rule 104F.

Our preferred location for this well was 1980' FSL and 1980' FEL. Reasons for requesting the non-standard location include the following:

1. Topographical: Location fell on the edge of a rough steep slope and BLM would not permit us to drill there.

Enclosed please find a copy of the lease map showing offsetting lease operators, a topographical map of the area, and a survey plat. All offsetting lease acreage is owned by Yates Petroleum Corporation, except the SE lease. M.J. Harvey, Jr., has that lease and he will be notified by Certified Mail.

Formations we expect to drill through are: San Andres, Fullerton and Abo.

Thank you for your help in this matter.

Sincerely,

YATES PETROLEUM CORPORATION
