Sec 25-20S-34E
Lea County, NM

Sirs:

An H2S Contingency Plan is not needed on the subject well due to recent gas analysis on Nearburg Producing Companies Federal LS #1, Sec 25, 20S, 34E, Lea Co., NM, which is producing out of the Delaware formation. This analysis shows that no H2S is present and we do not anticipate any on the referenced recompletion.

If you have any questions or need further information, please call me at the letterhead number.

Sincerely,

Sarah Jordan
