If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
Lightning struck fiberglass tank. Tank exploded releasing produced water. Vacuum trucks recovered free fluid. Fluid stayed in firewall containment.

Describe Area Affected and Cleanup Action Taken.\*  
Area affected approximately 40'X110' inside firewall. Impacted soil will be removed and disposed of a t NMOCD –Approved facility. Site will be backfilled and confirmation samples will be collected and submitted to the NMOCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
