Re: N.E. Salado Draw (Deep) Unit No. 2
990' FEL and 1075' FSL
Section 36, T25S, R33E,
Lea County, New Mexico

Gentlemen:

Pursuant to our telephone conversation on August 8, 1985, please find enclosed our updated lease plat showing offset lease status to the referenced proposed well. Also enclosed are properly executed exception letters from offset Operators as well as our latest montage map.

Reference is made to E. A. Rike's letter dated May 31, 1985, requesting permit approval. The well was originally slated to be spudded on or before July 1, 1985. Please be advised that Superior (Mobil) granted Sohio a ninety (90) day extension to the July 1, 1985 deadline thereby making our new spud dated "on or before October 1, 1985".

Sohio hereby requests your consent and administrative approval of an unorthodox location as outlined in the requirements of Rule 104C.II.(a) as found in the State of New Mexico O.C.D. Rules and Regulations Manual. If you require any additional information do not hesitate to contact the undersigned at the above address.

Yours very truly,

SOHIO PETROLEUM COMPANY

Don O. Leonhart
