Latitude _____ Longitude _____

NATURE OF RELEASE API # 30-025-27492

Type of Release-Condensate and Produced Water	Volume of Release 1 BO and 22 BW	Volume Recovered- 20 BW
Source of Release- 210 Fiberglass Tank	Date and Hour of Occurrence- 09/09/07 6:20 am	Date and Hour of Discovery 09/09/07 @ 6:30.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Pat Caperton	
By Whom? Larry Williams	Date and Hour 9/11/07 @ 1:30 p.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

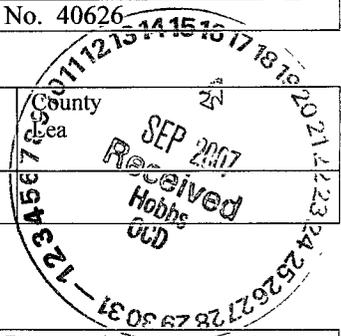

Describe Cause of Problem and Remedial Action Taken.*
Lighting struck Fiberglass 210 gun barrel tank causing it to burn down to 3' spilling out 22 bbl water and 1 bbl condensate. The condensate burnt in the fire and the water was contained inside of the secondary containment around the tanks. It also blew off the top of the metal 210 condensate tank as well. Had Vacuum truck come out and pick water out of secondary containment and hauled to third party disposal.

Depth to ground water 75'

Describe Area Affected and Cleanup Action Taken.* All fluid was contained within a secondary containment. Water was picked up with vacuum truck and took to third party disposal as well as emptying the rest of the water out of the burnt Fiberglass tank. Will do cosmetic clean up on secondary containment inside of battery. I don't have a test on the chlorides but will send one in if requested to.
Oil Gravity is 61.0

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
