Rio Arriba County, NM

Gentlemen:

Attached in duplicate (to each office) is a well location plat (C-102) with an ownership plat for the above referenced well.

Due to cliffs on East & North and pipeline on the South running West, this location does not meet state spacing requirements. This is the only geologic site acceptable.

Pursuant to the authority of Rule 104-F, we respectfully request your approval of an exemption to the standard well location requirements.

All distances must be from the outer boundaries of the Portion

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

**No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.**
