Attention: Dave Catanach

RE: Well Location
NW/4 Sec. 24-6S-22E
Chaves County, New Mexico

Gentlemen:

McKay Oil Corporation desires to drill a Federal lease in the NW/4 of Section 24, Township 6 South, Range 22 East, NMPM. (See Attachment "A") Due to topography and geological problems, McKay Oil is requesting an unorthodox location.

The well was originally staked at 1980' feet from the North line and 1980' feet from the West line. Due to the terrain, the BLM would not approve this location. (See Attachment "B")

The southeastern quarter of this quarter section was chosen because of geological data on wells to the South and East. Not much is know about the area to the North and West. Therefore, it is our opinion that this location would be the only economical and productive location to drill. (See attachment "C")

All minerals surrounding this proration unit are leased to McKay Oil Corporation. (See Attachment "A")

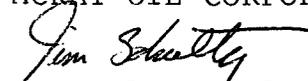

Therefore, McKay Oil requests that the O.C.D. approve the unorthodox location located at 1413' feet from the West line and 1166' feet from the North line Section 24, Township 6 South, Range 22 East, NMPM, which has been approved by the BLM and the Eastern New Mexico Archological Service.
