Dear Mr. Stamets:

Union Texas Petroleum requests administrative approval of an Unorthodox Location for a Blanco Mesaverde well. The basis for our request is topography. The offset operators have approved our request.

If I may be of any further assistance, please advise.

Very truly yours,

Gentlemen:

Union Texas Petroleum is submitting their proposal to drill and complete their Seymour No. 7A well in the Basin Dakota and Blanco Mesaverde formations located 1615' FSL; 2209' FEL, in Section 23, Township 31 North, Range 9 West, N.M.P.M., San Juan County, New Mexico.

Our records indicate that you are the and operator of acreage which adjoins this drilling unit. We request that you review the location and if you have no objections to the proposed non-standard location, we would appreciate your signing the attached two copies of this letter and return same to this office.

This well was staked as a non-standard location due to the solid rock canyon walls and slopes making it impossible to put a well location in a standard location.

Your prompt attention to this matter would be appreciated.

Yours truly,

UNION TEXAS PETROLEUM CORPORATION
