Re: Lookout Federal #7
NW/4, Section 11, T6S, R22E
Chaves County, N.M.

Gentlemen:

McKay Oil Corporation desires to drill a location in the NW/4, Section 11, Township 6 South, Range 22 East, NMPM. (See Attachment 'A') Due to topography and geological problems, McKay Oil is requesting an unorthodox status.

The well was originally staked at 990 feet from the North line and 990 feet from the West line. Due to the terrain, the BLM would not approve this location or any other normal location within this particular drilling spacing unit. (See Attachment 'B')

The NW/4 of this quarter section was chosen because of geological data on surrounding wells. Further, any location in this quarter section that would be feasible to drill would have to be a non-standard location. Therefore, it is our opinion that this location would be the best economical and productive location to drill. (See Attachment 'C')

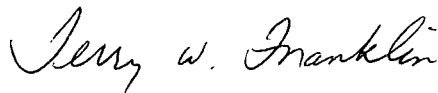

All minerals surrounding this proration, with the exception of to the North and Southeast are leased to McKay Oil Corporation. The minerals to the North and Southeast are lease to Mesa Petroleum. A notification letter to Mesa Petroleum is being mailed on this date in regards to the unorthodox location. Written confirmation of approval from Mesa to McKay Oil was requested as soon as possible. A copy of the letter will be forwarded to you upon our receipt.

O.C.D.
January 19, 1987

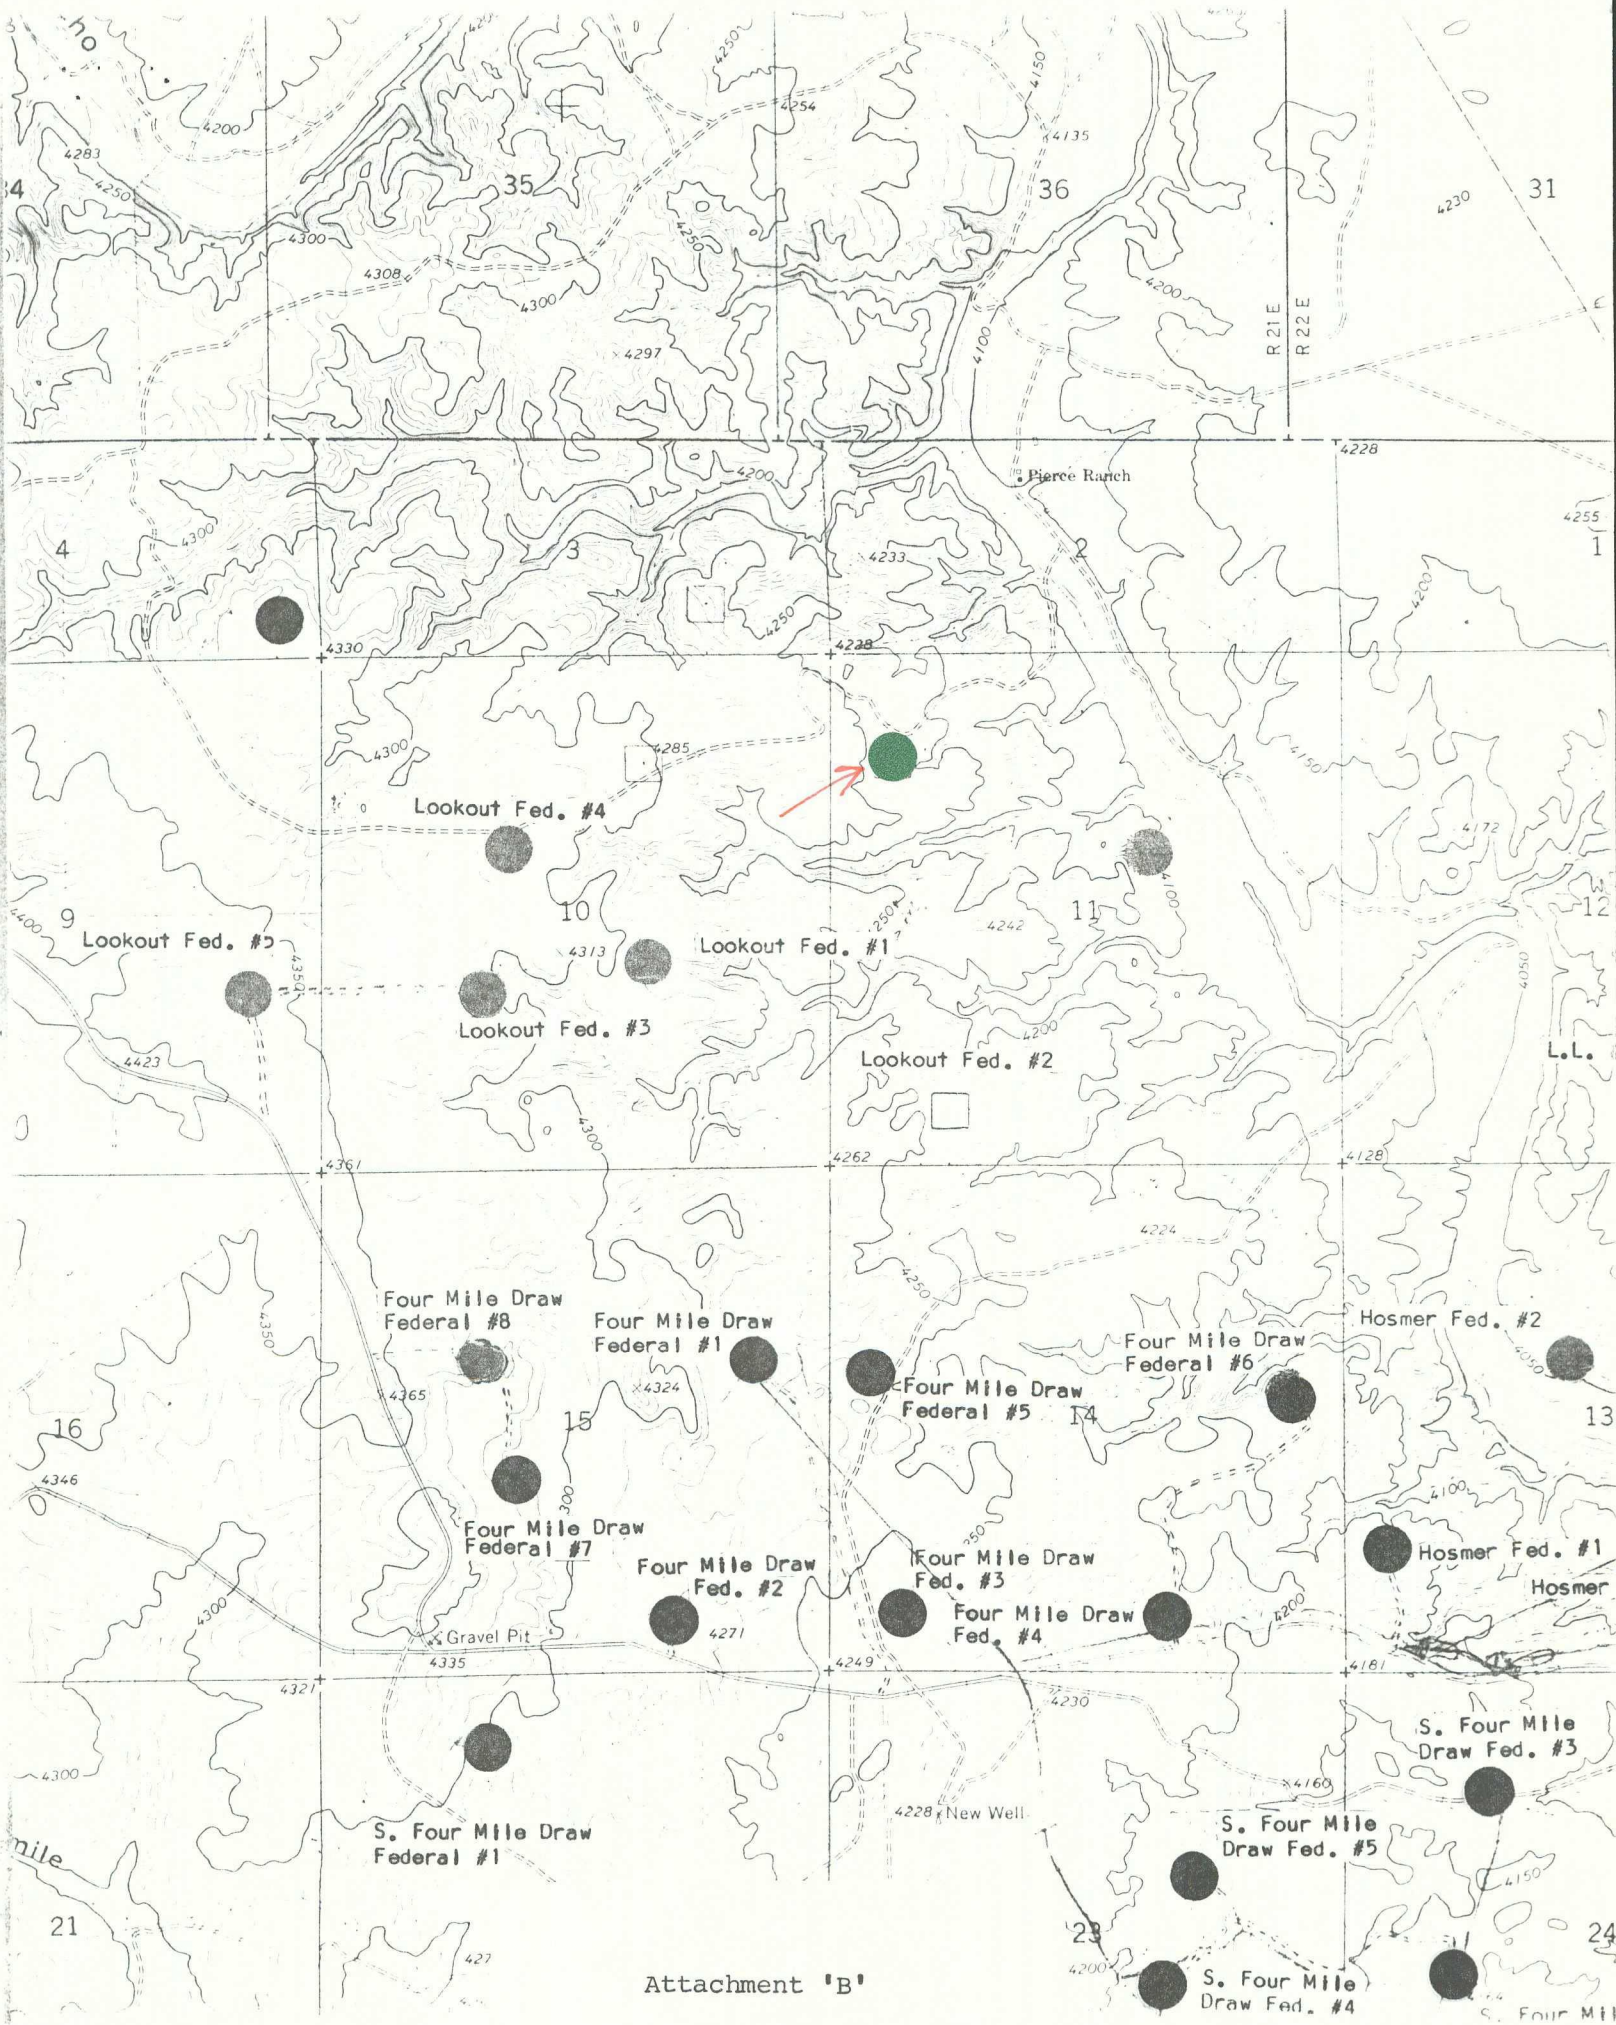

Therefore, McKay Oil requests that the O.C.D. approve the unorthodox location at 1170 feet from the North line and 660 feet from the West line, Section 11, Township 6 South, Range 22 East, NMPM, which has been approved by the BLM and E.N.M. Archaeological Service.

McKay Oil Corporation would request and appreciate your immediate attention to this matter. Thank you for your cooperation and assistance.

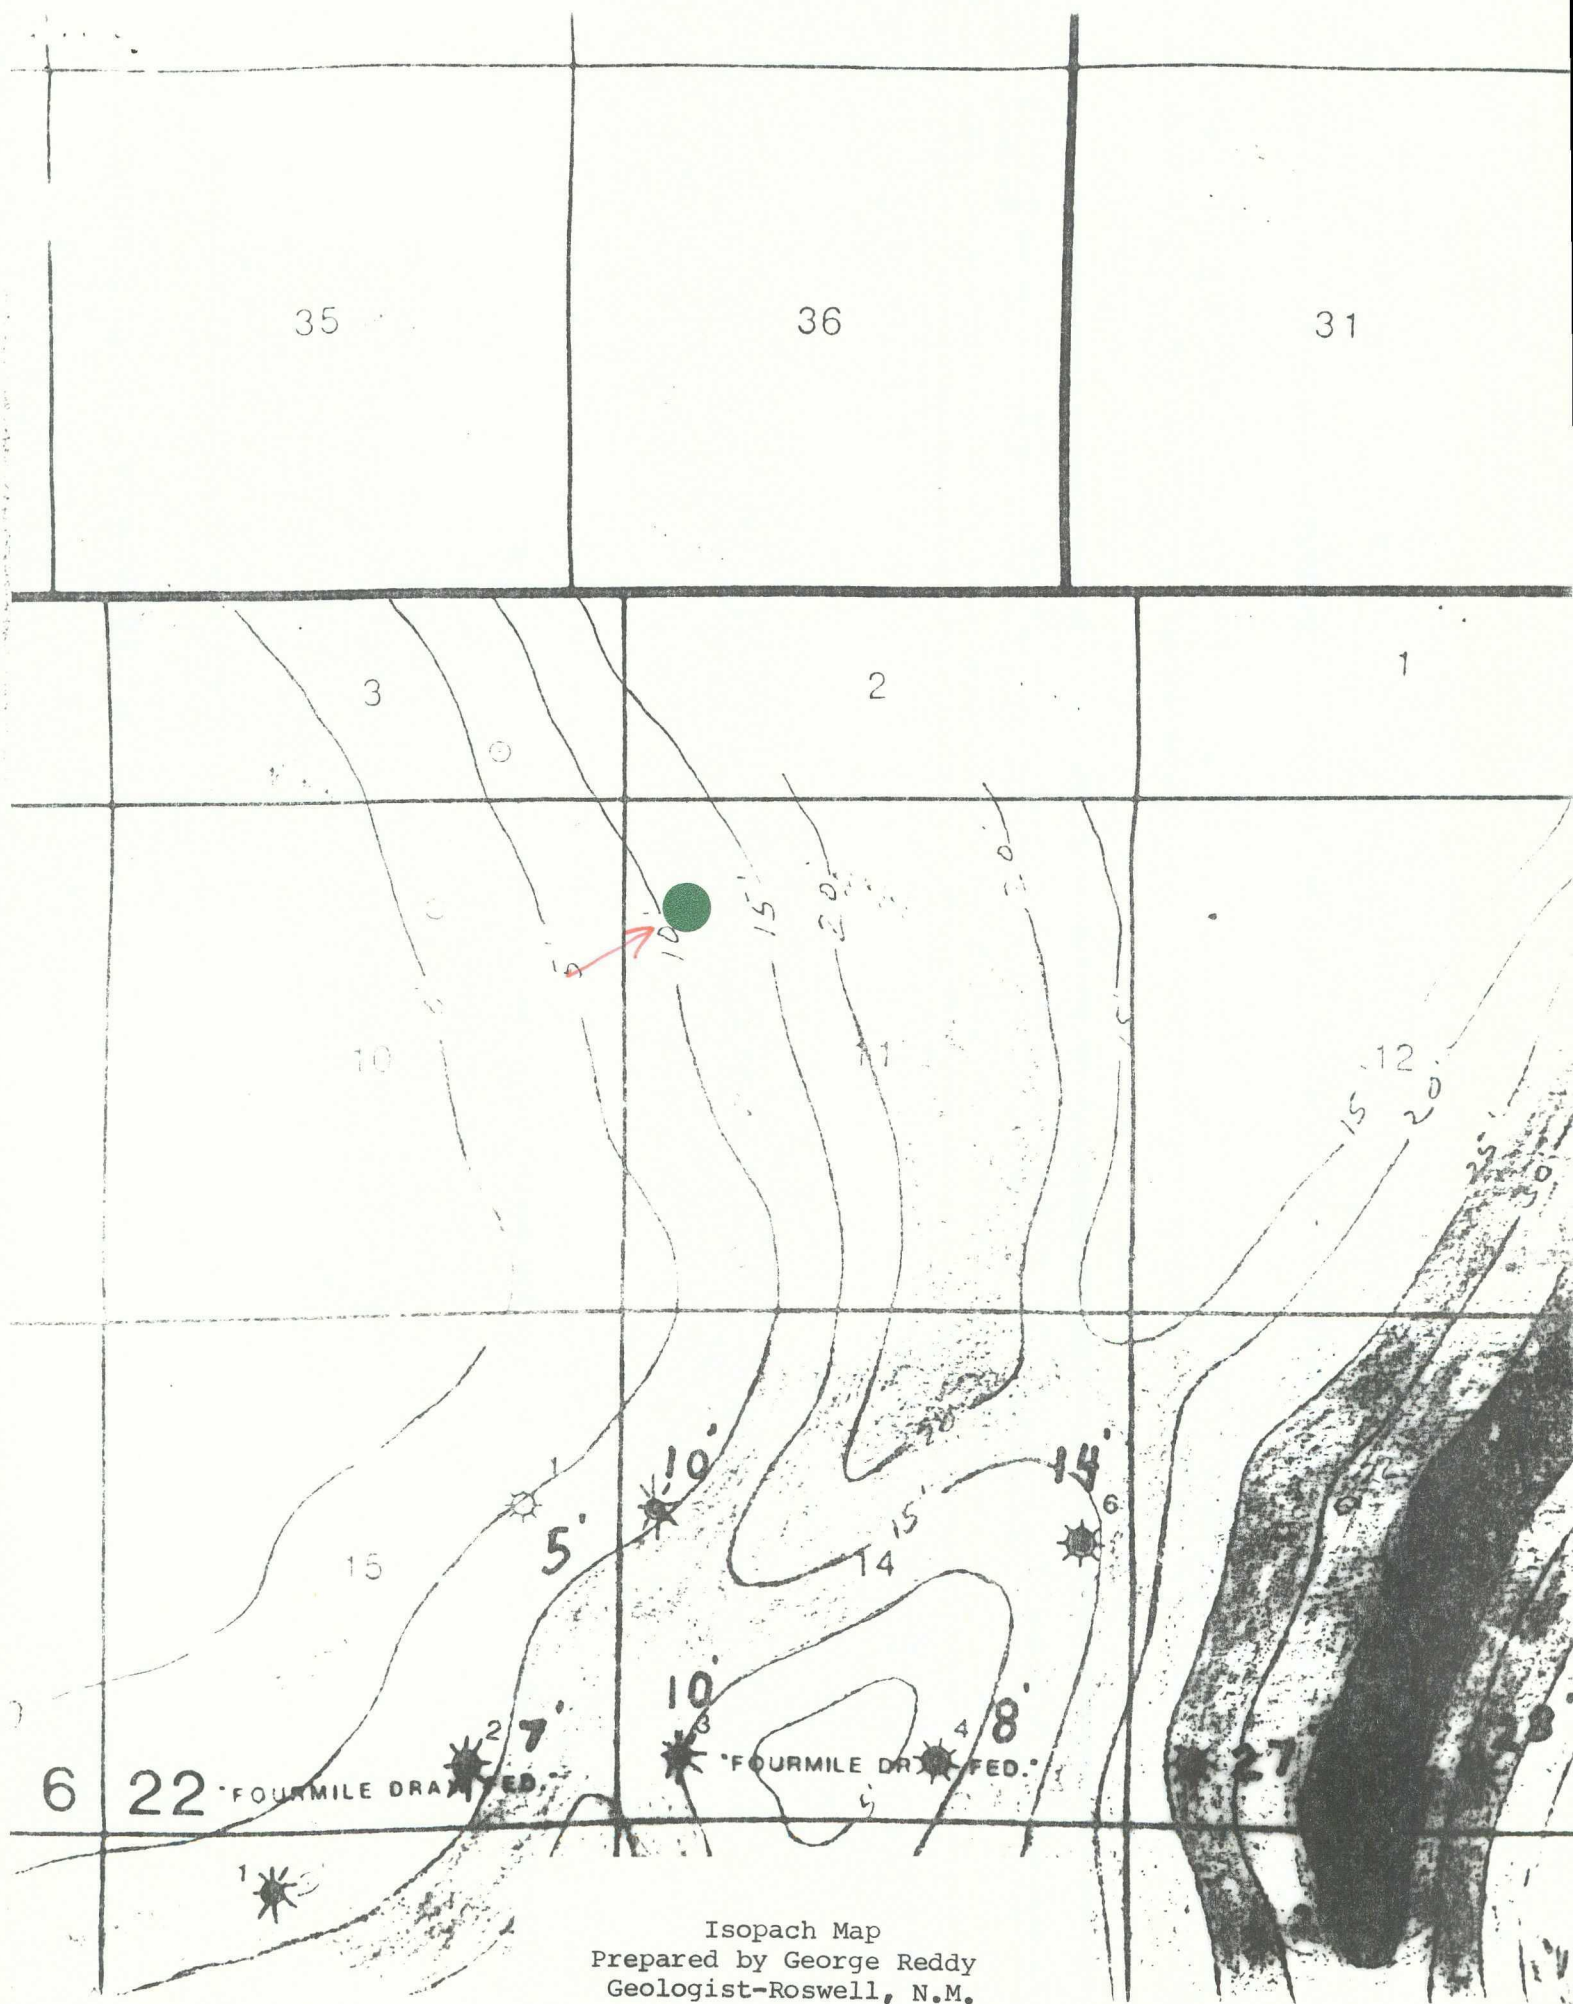

Sincerely,
McKay Oil Corporation

Actual Footage based on of Bolls					
1170 feet from the North line and		660 feet from the West line			
Ground Level Elev. 4216	Producing Formation ABO	Point W. Pecos Slope Abo		Dedicated Area 160	Acres

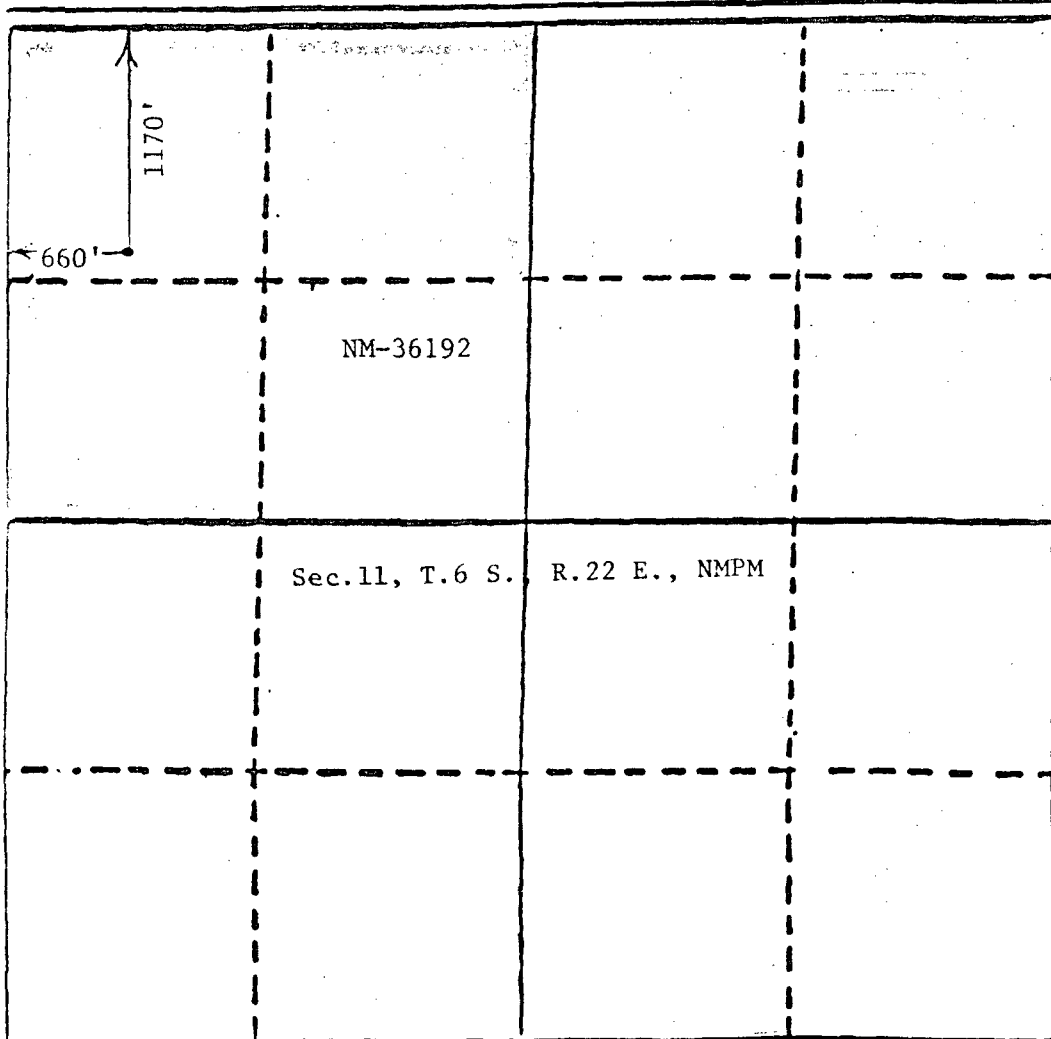

1. Outline the acreage dedicated to the subject well by colored pencil or marker marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

RECEIVED BY
JAN -7 1987
O. C. B.
ARTESIA, OFFICE

☐ Yes. ☐ No - If answer is "yes;" type of consolidation

If answer is "no;" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division

CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief.
