Re: Eppers Federal #2  
NW/4, Sec. 34, T5S, R21E  
Chaves County, N.M.

Gentlemen:

*Location on next page →*

McKay Oil Corporation desires to drill a location in the NW/4, Section 34, Township 5 South, Range 21 East, NMPM. (See Attachment 'A') Due to topography and geological problems, McKay Oil is requesting an unorthodox status.

The well was originally staked at 660 feet from the North line and 660 feet from the West line. Due to the terrain, the BLM would not approve this location or any other normal location within this particular drilling spacing unit. (See Attachment 'B')

The NW/4 of this quarter section was chosen because of geological data on wells to the south. Further, any location in this quarter section that would be feasible to drill would have to be a non-standard location. Therefore, it is our opinion that this location would be the best economical and productive location to drill. (See Attachment 'C')

All minerals surrounding this proration, with the exception of a 40 acre block to the East are lease to McKay Oil Corporation. The minerals to the East (40 acre block), are leased to Mesa Petroleum. A notification letter to Mesa Petroleum is being mailed on this date in regards to the unorthodox location. Written confirmation of approval from Mesa to McKay Oil was requested as soon as possible. A copy of the letter will be forwarded to you upon our receipt.

Therefore, McKay Oil requests that the O.C.D. approve the unorthodox location at 773 feet from the North line and 330 feet from the West line, Section 34, Township 5 South, Range 21 East, NMPM, which has been approved by the BLM and E.N.M. Archaeological Service.

McKay Oil Corporation would request and appreciate your immediate attention to this matter. Thank you for your cooperation and assistance.

Sincerely,  
McKay Oil Corporation

Terry W. Franklin  
Agent
