Gentlemen:

Enclosed are amended applications for permits to drill (C-101) Chevron's proposed H. T. Mattern (NCT-B) Well Nos. 25 and 26.

H. T. Mattern NCT-B #25 is located:

1400' FNL & 2600' FEL
Section 31, T21S R37E
Lea County, New Mexico

H. T. Mattern NCT-B #26 is located:

1200' FNL & 1400' FWL
Section 31, T21S R37E
Lea County, New Mexico

These wells are being proposed in unorthodox locations in the Drinkard Pool because reservoir drainage calculations from surrounding wells indicate that these wells will not be able to deplete the Drinkard Pool. Therefore, the proposed locations are in the best infill position to maximize oil recovery from parts of the Drinkard Pool that existing wells will not be able to deplete.

For the H. T. Mattern (NCT-B) #25, I have enclosed copies of the letters sent via registered mail to Amerada Hess notifying them of Chevron's Application for Permit to Drill, and a copy of the pre-printed "Waiver of Objection" Form, sent to expedite the approval process, to ensure a timely response to our request.

For the H. T. Mattern (NCT-B) #26, I have enclosed a map showing that Chevron is the only offset operator. Since Chevron is the affected offset operator and is also the operator applying for

an unorthodox location, we ask that the Energy, Minerals, and Natural Resources Department waive the required time frame used for notification and approve our application for well #26 after review.

These applications for Permit to Drill supersede all pervious waivers and applications.

If you have any questions concerning these applications, please contact me at (505) 393-4121.

Yours very truly,

A handwritten signature in dark ink, appearing to read "M. E. Akins". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

SECTION 31, T21S, R37E
LEA COUNTY, NEW MEXICO

Amerada Hess
P.O. Box Drawer D
Monument, New Mexico 88265

Gentlemen:

Enclosed is a copy of Chevron's Application for Permit to Drill the H. T. Mattern NCT-B #25, located 1400' FNL and 2600' FEL, Section 31, T21S, R37E, Lea County, New Mexico. We are sending this information to affected offset operators via registered mail per New Mexico Energy and Mineral Department regulations.

The above-mentioned location is being proposed in an unorthodox location in the Drinkard Pool because reservoir drainage calculations indicate that existing wells will not be able to deplete the field. Therefore, the proposed location is in the best infill position to maximize oil recovery from parts of the Drinkard Pool that existing wells will not be able to deplete.

If Amerada Hess does not have any objection to this application, we request that Amerada Hess sign the enclosed "Waiver of Objection" form sent for your convenience and return to the Energy and Minerals Department in Santa Fe, New Mexico, in the enclosed postage paid envelope.

If you have any questions concerning this application, please contact me at (505) 393-4121.

Yours very truly,

M. E. AKINS

UNORTHODOX LOCATION

Energy, Minerals, and Natural
Resources Department
Oil Conservation Division
P.O. Box 2088
Santa Fe, New Mexico 87504-2088

Gentlemen:

This is to advise that the undersigned has been given due notice that Chevron U.S.A. Inc. has made application for permit to drill the H. T. Mattern NCT-B #25 in the Drinkard Pool in an unorthodox location.

We hereby waive any objection to the granting of the permit to drill the H. T. Mattern NCT-B #25. This well is to be located 1400' FNL and 2600' FEL, Section 31, T21S, R37E, Lea County, New Mexico.

Executed this _____ day of _____, 1987.

Yours very truly,
