RE: Unorthodox Locations
Skelly Penrose A Unit
Well Nos. 68, 69, and 70
Lea County, New Mexico

Gentlemen:

An exception to Rule 104 C.I. by Administrative approval is requested for Texaco Producing Inc.'s Skelly Penrose A Unit Well Nos. 68, 69 and 70. The wells are located as follows:

Dedicated Acreage

- SE 1/4 SW 1/4 → Well No. 68: 95' FSL & 2524' ¹³³² FWL, Sec. 3, T-23-S, R-37-E
NE 1/4 NW 1/4 → Well No. 69: ~~94~~ 95' FNL & ~~1331~~ 1332' FWL, Sec. 10, T-23-S, R-37-E
NE 1/4 SW 1/4 → Well No. 70: 2689' FNL & 1438' FWL, Sec. 3, T-23-S, R-37-E

The wells must be drilled in these locations to ensure proper development on 20-acre spacing and to recover reserves that are not being recovered under present conditions. Wells with similar locations to these proposed locations have been drilled with reasonable success. The wells will be completed in the Langlie Mattix and Seven Rivers Queen formations.

Attached is an Area Plat showing the lease boundaries, present wells and the wells to be drilled. It is our understanding that since these proposed locations are on the "inside" of the lease that it is not required to notify any Offset Operators of this request.

Yours very truly,

L. J. Seeman

RE: NSL-2439
Texaco Producing Inc.
Skelly Penrose "A" Unit
Langlie Mattix Pool
Lea County, New Mexico

Gentlemen:

Texaco Producing Inc. respectfully requests that the referenced Administrative Order be amended as follows for Well No. 70:
2639' FNL & 1438' FWL, Section 3, T-23-S, R-37-E

This move of 50' North from the original location will allow us to clear some injection lines and to move the drilling rig further from the road. All other conditions for the well remain the same.

Attached is Form C-102 showing the new location, as well as the lease boundaries. Your prompt attention will be greatly appreciated as we have a drilling rig contracted and working on drilling the three wells that NSL-2439 applies to.

Yours very truly,
