Re: Unorthodox Locations
West Dollarhide Queen Sand Unit
T24S, R38E, Lea County, New Mexico

Gentlemen:

This letter shall serve as our request to have the following unorthodox locations approved by your office:

~~#108: 2310 FNL 330 FNL, Sec. 29, T24S, R38E, Unit E~~
#113: 330 FNL 2360 FNL, Sec. 31, T24S, R38E, Unit C

These two wells will be drilled for water injection purposes only. On the attached plats, you will note our locations lie within the unit boundaries of the West Dollarhide Queen Sand Unit. We are requesting approval of these locations because they will allow us to establish a more efficient waterflood pattern within the unit. It has been determined that wells #7 and #23 have wellbores unsuitable for deepening, and will be plugged and abandoned before starting water injection into wells #108 and #113.

Should you have additional questions, please call.

Sincerely,

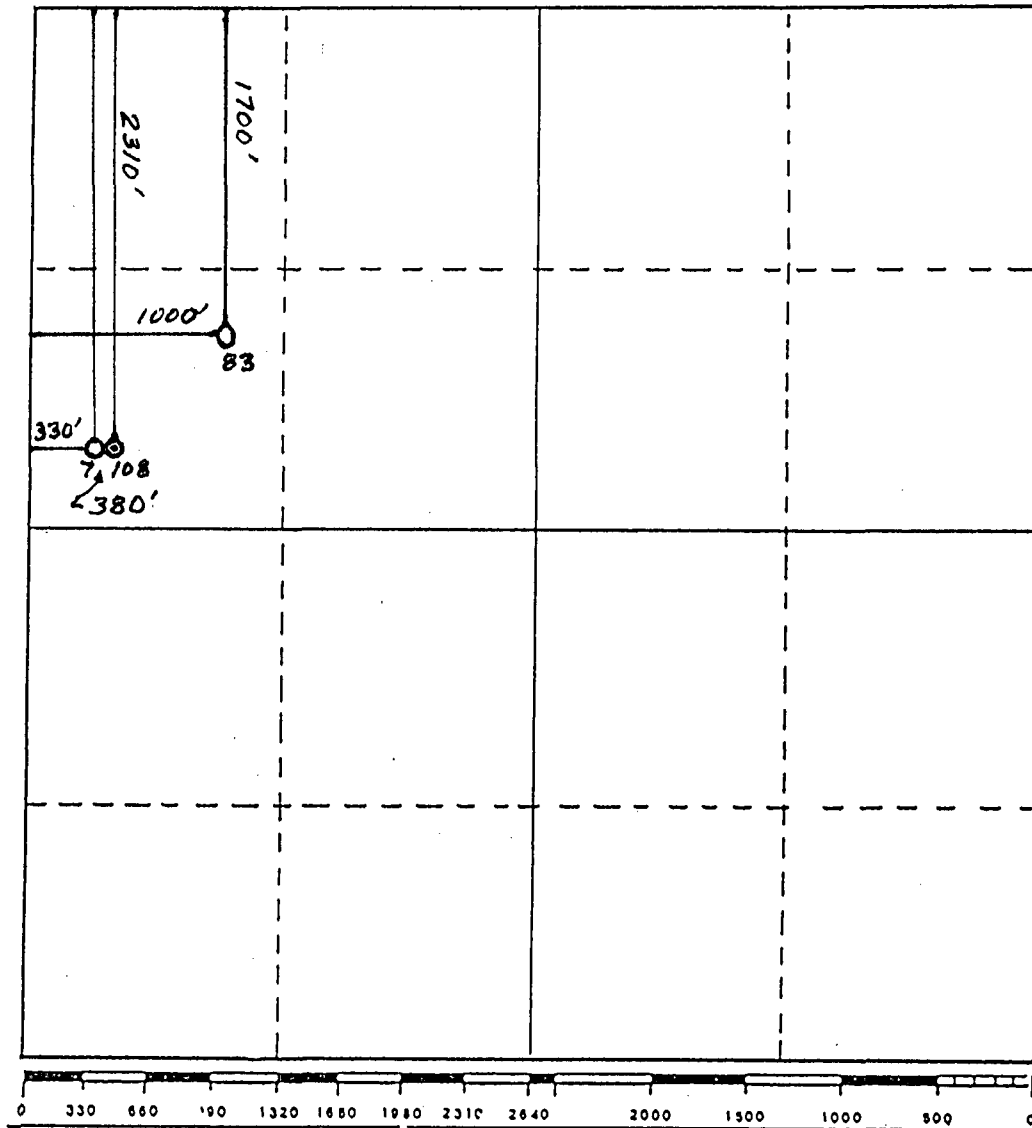

Amy L. Whitley
