RULE-104F(I)

Blanco Mesaverde Pool

Re: Quinn 2A
1690' FNL & 1520' FWL
Section 19-T31N-R8W
San Juan County, NM

22093-ans
A non-standard gas proration unit
approved by Division Order No R-392 and
consisting of the well of said Section 19 shall
be dedicated to the above described well.

Dear Mr. LeMay:

Union Texas Petroleum requests administrative approval of an unorthodox location for a Blanco Mesaverde completion. The basis for our request is for topographic reasons.

The only offset operator, which has been notified of our intentions, is Tenneco Oil Company. A copy of their letter is attached for your review.

This well will be an infill to the Quinn 2. A non-standard proration unit was established for the Quinn 2 under Order R-392.

If I may be of any further assistance, please advise.

Very truly yours,

Robert C. Frank

Re: Quinn 2A
1690' FNL & 1520' FWL
Section 19-T31N-R8W
San Juan County, NM

Dear Sir:

Union Texas Petroleum desires to drill a Blanco Mesaverde test at an unorthodox location of 1690' FNL & 1520' FWL. A standard location is not possible due to topography and a short section. This well will be an infill to the Quinn 2. A non-standard proration unit was established for the Quinn 2 under Order R-392.

As an offset operator we are required to notify you of our intentions. If you do not approve of our proposal, you have twenty days from this date to notify the Director of the Oil Conservation Division in Santa Fe, New Mexico. If you are in accord with our proposal, please acknowledge by signing and returning one copy of this letter to Union Texas Petroleum at your earliest convenience.

Very truly yours,

Robert C. Frank
Permit Coordinator

Acknowledgement:

Form C-102
Revised 10-1-79

All distances must be from the outer boundaries of the Section.

Operator UNION TEXAS PETROLEUM			Lease QUINN		Well No. 2-A
Unit Letter F	Section 19	Township 31N	Range 8W	County San Juan	
Actual Footage Location of Well: 1690 feet from the North line and 1520 feet from the West line					
Ground Level Elev. 6404	Producing Formation Mesaverde		Pool Blanco	Dedicated Acreage W/2 220.93 Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.
