Gentlemen:

Mewbourne Oil Company (Mewbourne) hereby requests administrative approval for Mewbourne's well located at a non-standard location of 467' FSL & 660' FWL of the captioned Section 6 for production attributable to the Atoka formation.

Mewbourne requests such approval of its application based upon topographic conditions and for the reason that the captioned well was previously drilled to a deeper horizon at an approved non-standard location. Such approval was granted pursuant to the terms of Administrative Order NSL-2560 (see copy enclosed).

Regarding the above, enclosed for your information are the following described Exhibits filed in triplicate:

- 1) Exhibit "A": Copy of topographic plat indicating the location of the captioned well.
- 2) Exhibit "B": Tract ownership listing of the offset operators or ownership notified of Mewbourne's application.
- 3) Exhibit "C": Tract ownership plat of the owners listed on Exhibit "B".

Regarding the above, Mewbourne Oil Company's Federal lease (NM-71752) covers all of Section 6 Save and Except Lot 1 (NE/4NE/4) and the S/2SE/4.
