Re: Unorthodox Gas Well Location
Northeast Blanco Unit No. 414
2330' FNL - 150' FEL, Sec. 30, T31N, R7W
San Juan Co., New Mexico

Dear Mr. LeMay;

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the footage requirements of Rule 7, R-8768 for the subject well, located in the Basin Fruitland Coal Pool.

This request is for exception due to topography. A Vicinity Map and C-102 are attached for your reference. As evidenced by the Vicinity Map, most of the standard footage window is covered by Navajo Reservoir or on the steep canyon walls adjacent to the reservoir. This location was picked to minimize the disturbance of the area surrounding the reservoir.

The east half of Section 30 will be dedicated to this well. All offset proration units are operated by Blackwood and Nichols Co., Ltd.

Your prompt consideration of this request is appreciated.

Sincerely,

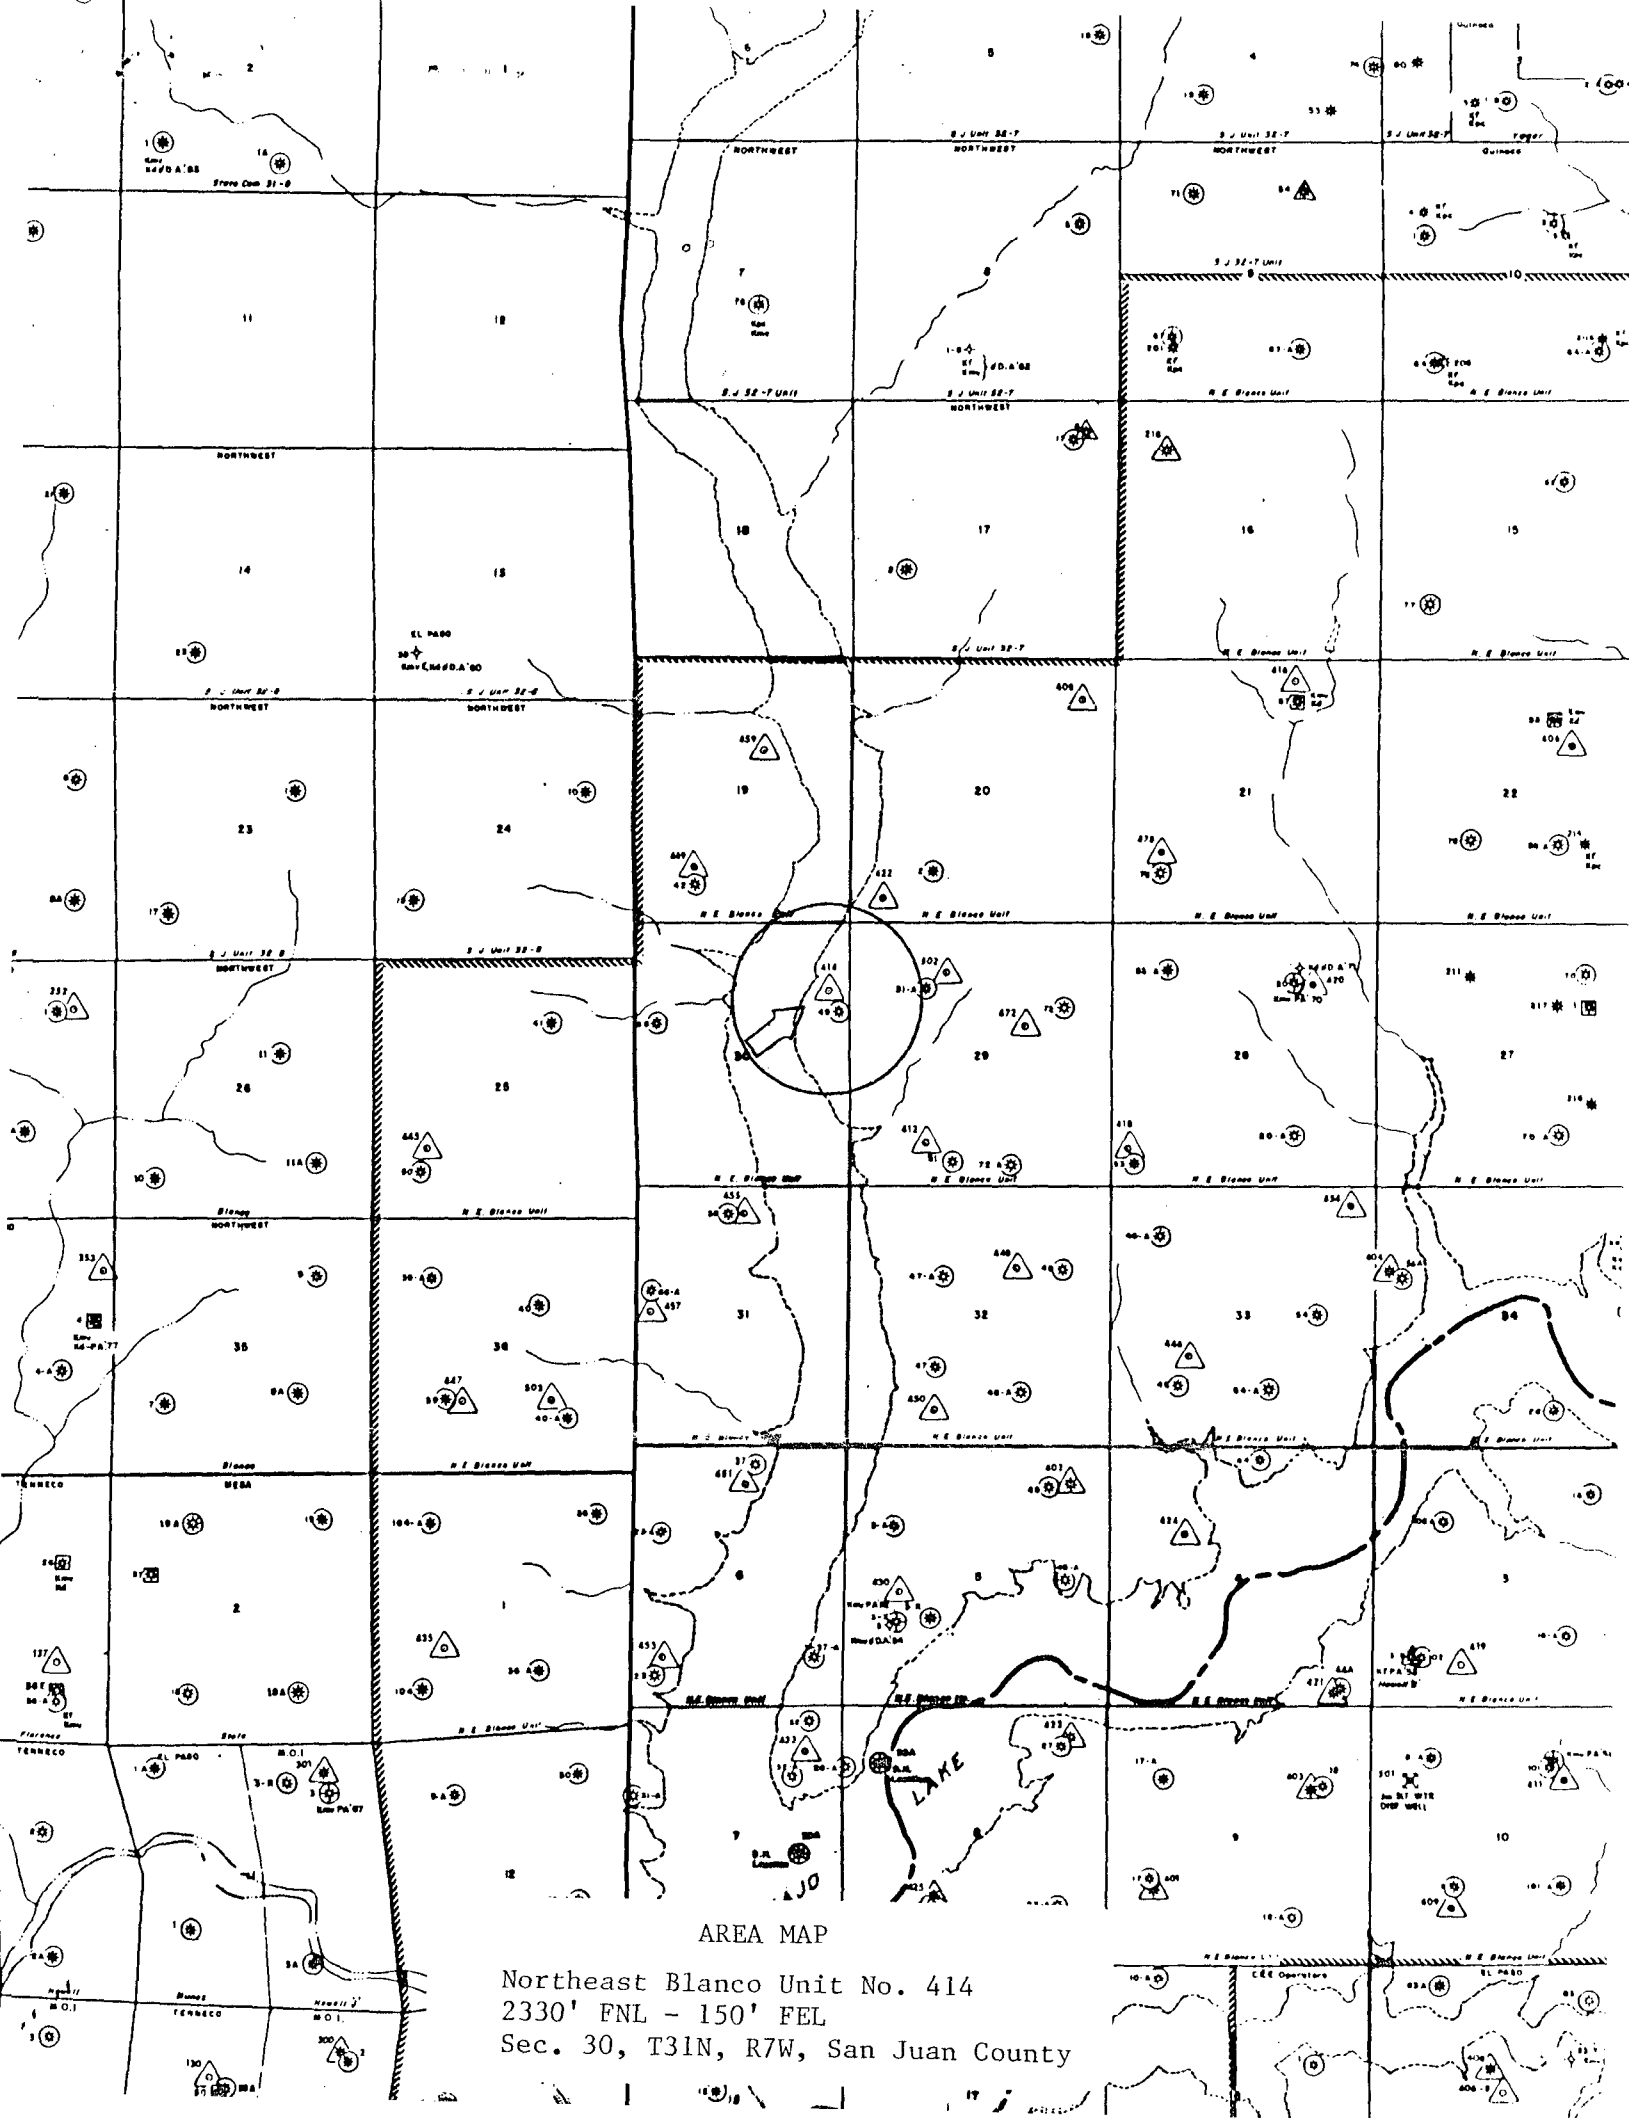

A handwritten signature in cursive script, appearing to read "William F. Clark".
