Re:Unorthodox Gas Well Location Northeast Blanco Unit No. 483 1750'FNL - 2045'FEL, Sec.36, T31N, R7W San Juan Co., New Mexico

Dear Mr. LeMay;

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the footage requirements of Rule 7, R-8768 for the subject well, located in the Basin Fruitland Coal Pool.

This request is for exception due to topography. A Vicinity Map and C-102 are attached for your reference. This location was staked to take advantage of the existing well pad and minimize construction impacts to Navajo Lake State Park.

The east half of Section 36, T31N, R7W, will be dedicated to this well. All operators of offset proration units have been supplied a copy of this request by certified mail.

Your prompt consideration of this request is appreciated.

Sincerely,

William F. Clark
Operations Manager
Blackwood & Nichols
