Attention: William F. Carr,
Operations Manager

Amended Administrative Order NSL-2675

Dear Mr. Clark:

Reference is made to your application dated September 29, 1989 to amend Division Administrative Order NSL-2675 dated July 12, 1989, which authorized an unorthodox coal gas well location for your Northeast Blanco Unit Well No. 463 to be drilled 2510 feet from the South line and 2400 feet from the East line (Unit J) of Section 18, Township 30 North, Range 7 West, NMPM, Basin-Fruitland Coal Gas Pool, San Juan County, New Mexico.

It is my understanding that a change in the proposed well location is needed to accommodate the drilling pad. Therefore, by authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool, as promulgated by Division Order No. R-8768, the location for your proposed Well No. 463 to be drilled at an unorthodox coal gas well location 2485 feet from the South line and 2400 feet from the East line (Unit J) of said Section 18 is hereby approved.

All other provisions of said original order NSL-2675 shall remain in full force and effect until further notice.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay".

William J. LeMay
