Re: Unorthodox Gas Well Location
Northeast Blanco Unit Well No. 463
2485' FSL, 2400' FEL
Section 18, T30N, R7W
San Juan County, New Mexico

Dear Mr. LeMay:

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the footage requirements of Rule 7, R-8768, for the subject well located in the Basin Fruitland Coal pool.

This request is for exception due to topography. A vicinity map and C-102 are attached for your reference. The location cannot be moved to any standard location in the northeast quarter due to the proximity of Navajo Reservoir and the Navajo Marina.

The east half of Section 18, T30N, R7W will be dedicated to this well. All offset proration units are operated by Blackwood & Nichols Co., Ltd.

This well was previously approved under NSL-2675. However, it was necessary to move the location an additional 25' south to provide adequate location size.

Your prompt consideration of this request is appreciated.

Sincerely,

BLACKWOOD & NICHOLS CO., LTD.

William F. Clark
