RE: Exception to Rule 104-FII

Mr. Stogner:

Tiffany Gas Company request "Administrative Approval" of non-standard location for the USG Section 19 Well #50, located 1450 FNL and 1600' FEL; Section 19, T29N, R16W; San Juan County, New Mexico.

Standard location would be 1650' FNL and 1650' FEL; Section 19, T29N, R16W; San Juan County, New Mexico. Due to close proximity of the Chaco Wash as shown on attached copy of TOPO Map the standard location would be too close to the stream bed bank. We considered this a undrillable location.

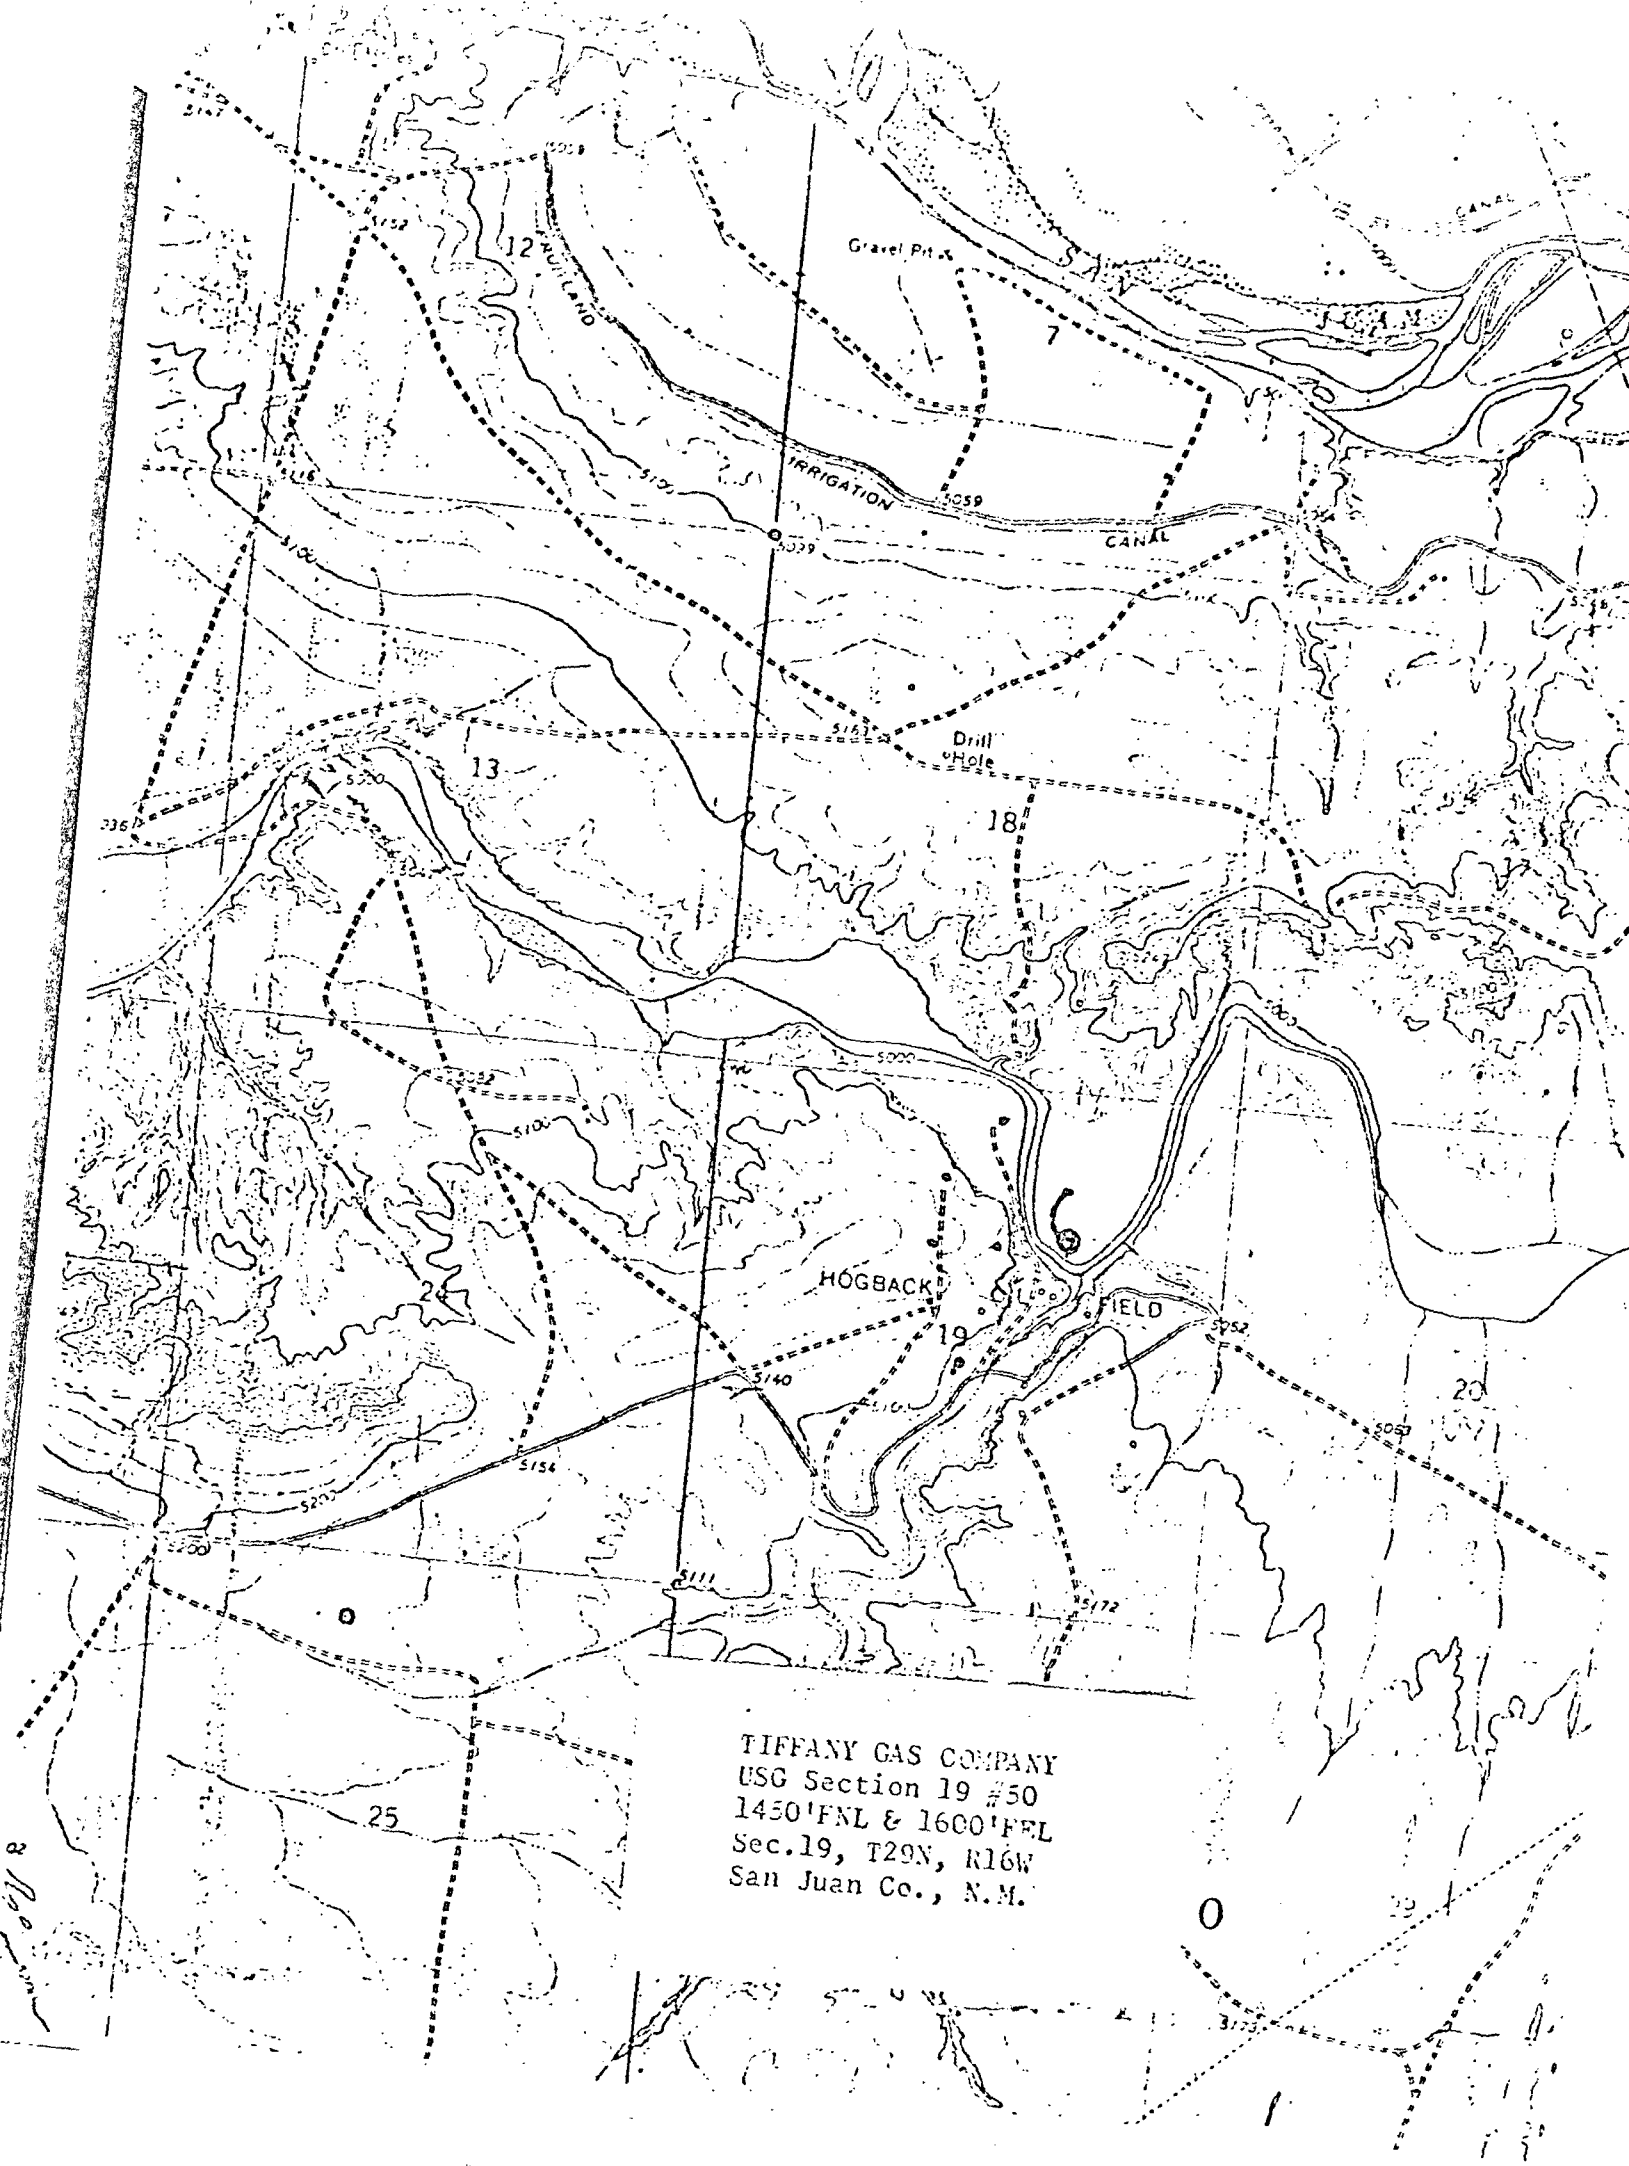

Notification of offset operators isn't required. We are operator of all surrounding wells.

Sincerely,

JD Hicks

NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT

Form C-102
3-1-77
E.O. 11514-14-0

All distances must be from the outer boundaries of the Section.

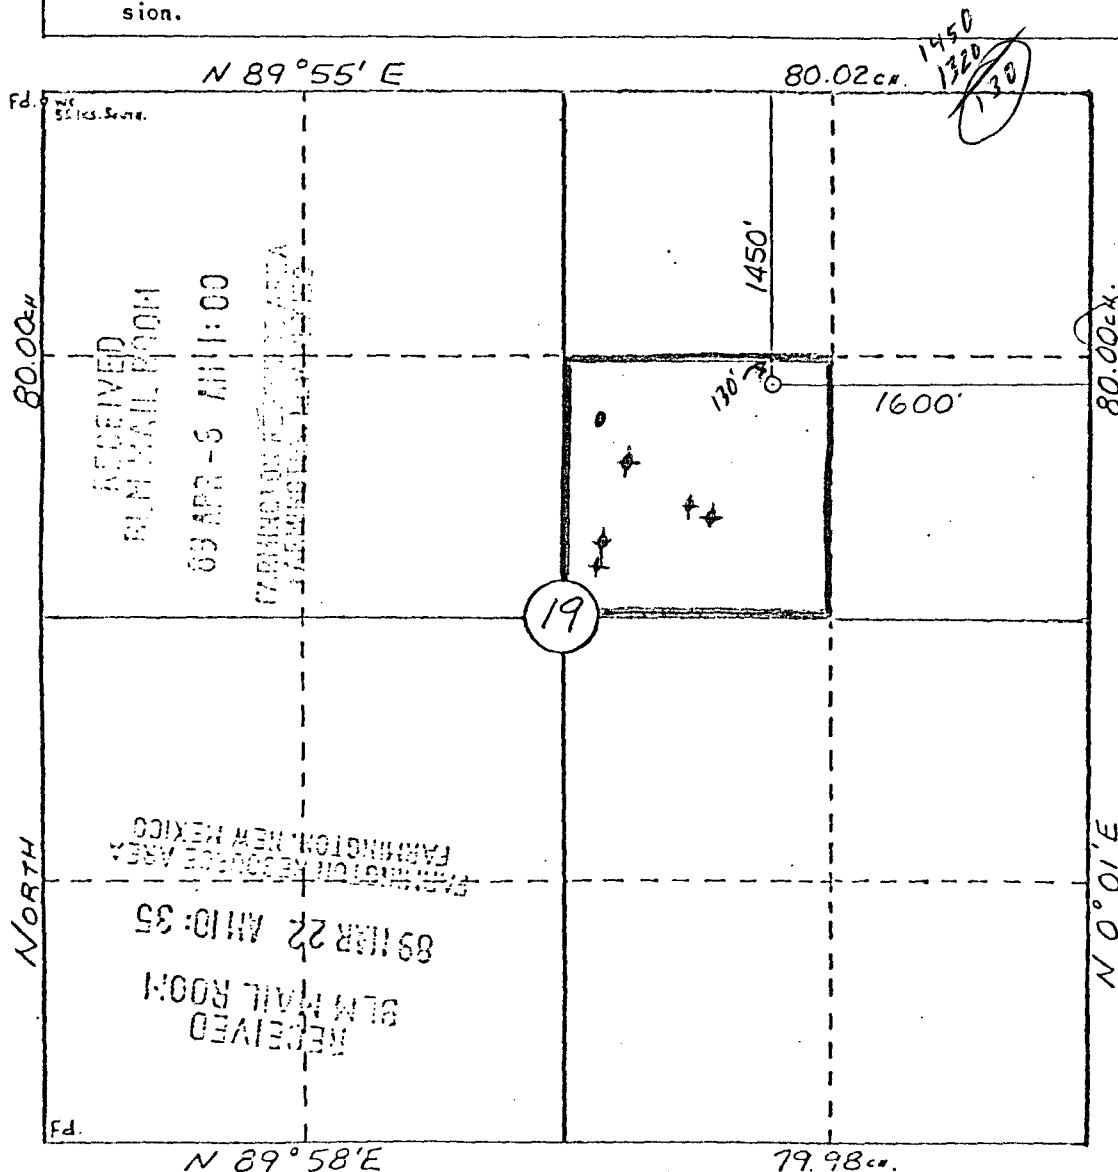

Operator TIFFANY GAS COMPANY		Lease USG Section 19		Well No. 50
Unit Letter G	Section 19	Township 29 N	Range 16 W	County San Juan
Actual Footage Location of Well: 1450 feet from the North line and 1600 feet from the East line				
Ground Level Elev: 5000	Product Formation DAKOTA	Pool HOGBACK DAKOTA	Dedicated Acreage 40	

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
