Administrative Order NSL-2723

Dear Mr Cherski:

Reference is made to your application of November 7, 1989 for two unorthodox Jalmat gas well locations in an existing non-standard 480-acre gas spacing and proration unit for said Jalmat Gas Pool comprising the N/2 and SW/4 of Section 11, Township 23 South, Range 36 East, NMPM, Lea County, New Mexico. Said unit was authorized by Division Order No. R-4361, as amended, and was the subject, in part, of Division Case No. 9775. Authorization was also given in said Order No. R-4361 to simultaneously dedicate the State "A" A/C-1 Well Nos. 16, 29 and 34 located, respectively, in Units A, C and K of said Section 11 to this proration unit.

It is our understanding that both of the subject wells in this application are currently temporarily abandoned in the Langlie-Mattix Pool and that both wells will be plugged back to the Jalmat Gas Pool.

By authority granted me under the provisions of Rule 2(c) of the Special Rules and Regulations for the Jalmat Gas Pool, as promulgated by Division Order No. R-8170, as amended, both of the following described wells located at unorthodox gas well locations are hereby approved:

State "A" A/C-1 Well No. 67
1980' FNL - 660' FEL (Unit H); and

State "A" A/C-1 Well No. 99
1980' FNL - 660' FWL (Unit E).

Also, you are hereby authorized to simultaneously dedicate Jalmat Gas production from both the State "A" A/C-1 Well Nos. 67 and 99 with the State "A" A/C-1 Well Nos. 16, 29 and 34; furthermore, you are hereby permitted to produce the allowable assigned the proration unit from all of the said wells in any proportion.

Sincerely,
