*Administrative Order NSL-2759*

Dear Mr. Basham:

Reference is made to your application of February 13, 1990 for a non-standard oil well location to permit the completion of an efficient production/injection pattern within an active secondary recovery project for your Vacuum Grayburg/San Andres Unit Well No. 141 to be located 1980 feet from the North line and 1309 feet from the West line (Unit E) of Section 1, Township 18 South, Range 34 East, NMPM, Vacuum Grayburg San Andres Pool, Vacuum Grayburg San Andres Pressure Maintenance Project Area, Lea County, New Mexico. Said well to be dedicated to the existing standard 40-acre oil spacing and proration unit comprising the SW/4 NW/4 of said Section 1.

By the authority granted me under the provisions of General Rule 104 F(I), the above-described unorthodox oil well location is hereby approved.

Sincerely,

  
William J. LeMay  
Director
