Administrative Order NSL-2771

Dear Mr. Beardemphl:

Reference is made to your application of February 16, 1990 for a non-standard gas well location for your Carl "YB" Well No. 2, which was originally drilled and abandoned in 1968 at a depth of 9313 as a Mississippian oil test at a standard oil well location, 1650 feet from the South line and 2220 feet from the West line (Unit K) of Section 22, Township 20 South, Range 24 East, NMPM, Undesignated Foster Ranch Morrow Gas Pool, Eddy County, New Mexico. The W/2 of said Section 22 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of General Rule 104 (I) the above-described unorthodox gas well location is hereby approved.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay".
