Attention: Mr. Michael E. Stogner

Gentlemen:

An Exception to Rule 104 F.I. by administrative approval is requested for Texaco Producing Inc.'s Vacuum Grayburg San Andres Unit Well Nos. 145 and 156. The wells are located as follows:

Well No. 145: 1355' FNL, 1960' FWL, Sec. 2, T-18-S, R-34-E

Well No. 156: 660' FNL, 1330' FWL, Sec. 1, T-18-S, R-34-E

The wells must be drilled in these locations to ensure proper development of 10-acre spacing. Wells drilled previously on 10-acre spacing have proven to be viable wells. These wells will be completed in the Grayburg San Andres formation. Texaco Producing Inc. is the only affected offset operator, and we grant ourselves a waiver for Well No. 156.

Attached is Form C-102 for each well and a lease plat showing existing wells, locations of the subject wells, and the affected offset operator.

Yours very truly,

C. P. Basham  
Drilling Superintendent  
on Behalf of Texaco Producing Inc.

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?

☒ Yes ☐ No If answer is "yes" type of consolidation Unitization

If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.
