June 7, 1990

Sendero Petroleum, Inc.  
P.O. Box 1736  
Midland, TX 79702

Attention: Kurt Boley, Vice-President

*Administrative Order NSL-2809*

Dear Mr. Boley:

Reference is made to your application dated May 9 and 17, 1990 to re-enter the plugged and abandoned Santa Fe Exploration Company Indian Basin Federal Well No. 1, located at a standard gas well location 660 feet from the South and East lines (Unit P) of Section 8, Township 21 South, Range 23 East, NMPM, to test the Undesignated Indian Basin Upper Pennsylvanian Gas Pool, Eddy County, New Mexico.

Pursuant to your application and according to the files on record with the Division, said well was originally drilled by Santa Fe Exploration Company in June 1989 to a total depth of 9355 feet to test the Undesignated Indian Basin-Upper Pennsylvanian Gas Pool. By Division Order No. R-8913 the unorthodox location for said well was granted. However, by Division Order No. R-8913-A all provisions of said Order No. R-8913 were vacated since the well had been properly plugged and abandoned on July 5, 1989.

At this time, the applicant, Sendero Petroleum Inc., has made a proper filing pursuant to Rule 2(c) of Division Order No. R-8170, as amended. However, per an agreement with offsetting operators, production from this well should not exceed 50 percent of the standard monthly proration allowable assigned the proration unit.

Administrative Order NSL-2809

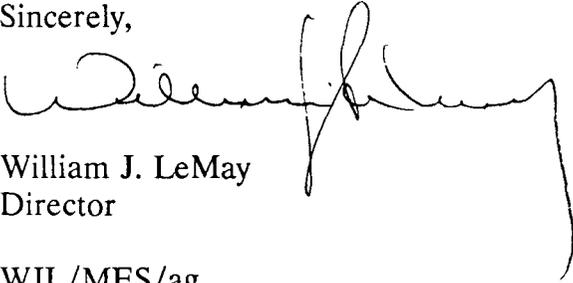

Sendero Petroleum, Inc.

June 7, 1990

Page 2

Therefore, the above-described unorthodox gas well location, to be renamed the Pronghorn Federal Well No. 1, is hereby approved, PROVIDED HOWEVER said well and unit shall be assigned an acreage factor of 0.5.

Sincerely,

William J. LeMay  
Director
