RE: Johnson #2
1625'FSL, 1090'FEL
Section 21, T-27-N, R-10-W
San Juan County, New Mexico

Dear Mr. LeMay:

This is a request for administrative approval for a non-standard gas well location in the Basin Fruitland Pool.

Meridian Oil intends to plugback and recomplete the Johnson #2 well from the Pictured Cliffs pool to the Basin Fruitland Coal Pool. The current location of this well is 1625'FSL, 1090'FEL, Section 21, T-27-N, R-10-W, San Juan County, New Mexico. The well is considered non-standard due to the NE-SW dedicated pattern established for the Basin Fruitland Coal Pool. To comply with the New Mexico Oil Conservation Division rules, Meridian is submitting the following for your approval of this non-standard location:

1. C-102 plat showing location of the well;
2. Plat showing offset owners/operators;
3. Affidavit of notification of offset owners/operators;
4. Copy of Well Completion Log for original completion.

A copy of this application is being submitted to all offset owners/operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Sincerely yours,

Peggy Bradfield
encl.

WAIVER

Mobil Producing Texas & New Mexico, Inc. hereby waives objection to Meridian Oil Inc.'s application for a non-standard location for their Johnson #2 as proposed above.
