RE: Resubmittal of 4 Requests for Administrative Approval of Unorthodox Well Locations

## Dear Michael:

Pursuant to our telecon today, enclosed you will find duplicate copies of our original requests dated January 3, 1989, on the following well locations:

Jicarilla 459 # 6 Sec. 20, T30N-R3W Rio Arriba Co. NM Jicarilla 459 # 7 Sec. 17, T30N-R3W Rio Arriba Co. NM Jicarilla 459 #11 Sec. 20, T30N-R3W Rio Arriba Co. NM Jicarilla 464 #15 Sec. 32, T30N-R3W Rio Arriba Co. NM

I spoke to Ernie Busch and he does have his copies of our original submittals to work with. He has been to the locations once, but due to inclement weather needs to go back to the sites to confirm approval by his office. He is aware now that these submittals have "fallen through the crack" and will take action as soon as possible. Your cooperation in expediting the final approval process will, likewise, be appreciated. If you need anything further, please contact me or Kevin McCord at 326-2659.

Singerely,

RE: Request for Administrative Approval of an Unorthodox Location Jicarilla 459 #6 2205' FSL & 1530' FWL Section 20, T30N, R3W Rio Arriba County, New Mexico

Dear Mr. LeMay:

We request administrative approval of an unorthodox location for our Jicarilla 459 #6 Pictured Cliffs formation gas well, located 2205' FSL & 1530' FWL. Section 20. T30N, R3W, Rio Arriba County, New Mexico. This well is 355 feet too close to the quarter section line which divides the N1/2 and the S1/2 of Section 20, T30N, R3W. You will note from the enclosed topographic map that there is no other area for an economically buildable location in this quarter section due to the rough topography. Also enclosed is a lease map indicating that Robert L. Bayless is the operator of all surrounding 160 acre tracts to this well, as well as a well location and acreage dedication plat for this well.

If you need any further information in this regard, please advise.

Yours truly,

Kevin H. McCord Petroleum Engineer
